ADDENDUM – NEW FEATURE

CopyMail

CopyMail gives you the option of having all your incoming and outgoing email copied to an additional email address – FREE OF CHARGE!

This excellent new feature is especially useful if you wish to use the *e-mailer* in conjunction with a PC in your home or office.

With CopyMail added, you can use your *e-mailer* to send/receive business email from home, safe in the knowledge that all correspondence will be copied to your office PC.

What's more, if you have an *e-mailer* at work, you can get emailing as soon as you arrive at the office (while your PC is still busy booting up, logging on and connecting to the internet). It's also handy for those days when your PC has been struck down by a virus – you'll still be able to carry on emailing using the *e-mailer*.

The CopyMail feature is offered during **registration**. You will see the question:

Do you want all emails you send and receive on the e-mailer to be copied to another email address (for example, your office PC)?

(You can also add this feature (or remove it or change it) **after registration**. To do this, press **SETUP, 6, 8** then **ENTER**. The *e-mailer* will connect to Amserve.)

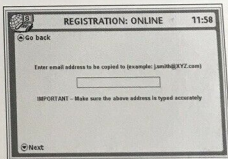

When the above question appears, press:

- Y** – if you want to **add** this feature (or **change** the CopyMail email address), or
- N** – if you **don't** want this feature (or you wish to **remove** it).

If you press **Y**, the following display will appear:

Carefully type in the email address to which you want your incoming and outgoing email copied. (If you need to delete any characters on the screen, use the **←DEL** key.)

Double-check the email address you've typed in, then press **▼** to highlight **▼Next**.

The screenshot shows a registration screen with the title "REGISTRATION: ONLINE" and a time of "11:58". At the top left is a small globe icon. Below the title is a "Go back" button. The main text says "Enter email address to be copied to (example: jami@XYZ.com)" followed by an empty input field. Below the input field is the text "IMPORTANT - Make sure the above address is typed accurately". At the bottom left is a "Next" button.

Once you've carried out the above instructions, press **ENTER** to continue.

*CopyMail offers a further advantage with regard to **attachments**. By using the feature to copy all your email to a PC, attachments which cannot be viewed or heard on the *e-mailer* may be opened on the PC instead.*

IMPORTANT

This e-mailer is subsidised by the use of the email service on landlines. It is not available for use on mobile phones. The sending and/or receiving of messages or images has a fixed cost of 17p per message. Some time taken to send email messages may be charged at a different rate for the same percentage cost.

So that you don't miss any mail, the e-mailer is set to dial and check for messages on a fixed rate of 17p per message. Calls to check for mail cost 17p per minute (plus VAT).

SO THAT YOU DON'T MISS ANY EMAIL, THE DAILY EMAIL CALL WILL RESULT IN A CHARGE OF APPROX 17p PER DAY ON YOUR PHONE BILL. ON QUARTERLY BILLS THIS CHARGE MAY BE SHOWN AS APPROX 50 SEPARATE DAILY CALLS.

Note: a further condition of the subsidy is that you must be on a contract with a fixed rate of 17p per minute. You must also be on a contract with a fixed rate of 17p per minute. This e-mailer is subsidised by the use of the email service on landlines. It is not available for use on mobile phones. The sending and/or receiving of messages or images has a fixed cost of 17p per message. Some time taken to send email messages may be charged at a different rate for the same percentage cost.

IMPORTANT

The e-mailer is subsidised by the use of the email service (as is similarly the case with most mobile phones). The sending and/or collecting of email has a minimum cost of 15p per session plus your local call rate per minute. A session can both send and collect waiting email at the same time (note that several email messages may be sent and/or collected in a single session, all for the same per-session cost).

So that you don't miss any email, the e-mailer is set to call and check for email once a day. This can be increased if required. Calls to check for email cost 15p per session plus your local rate per minute (average cost 17p*).

SO THAT YOU DON'T MISS ANY EMAIL, THE DAILY EMAIL CALL WILL RESULT IN A CHARGE OF APPROX 17p* PER DAY ON YOUR PHONE BILL. ON QUARTERLY BILLS THIS CHARGE MAY BE SHOWN AS APPROX 90 SEPARATE DAILY CALLS.

Note, a further condition of the subsidy is that from time to time you will see adverts displayed on your e-mailer screen (sent at no cost to you). You may respond to these adverts or delete them as you see fit.

The e-mailer incorporates Amstrad which allows connection to the internet enabling you to view low graphic content sites as well as a limited range of internet web sites. The cost of surfing is 50p per minute at all times.

The e-mailer also incorporates additional features such as SMS texting, downloadable ringtones and games as well as other services such as electronic greetings cards, mobile services, prank calls, etc. The cost of all these services can be viewed on the screen prior to purchase. *Correct at time of printing.
