Games Machine

The Amstrad PC5286 Games Pack comes complete with everything you'll need to run PC games software - including three of the best titles available.
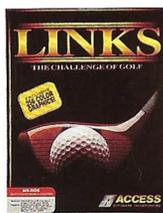

The precision analogue joystick supplied puts you in the pilot's seat in "F-15 Strike Eagle II", the fast action air combat simulator from MicroProse.

"Links" - the graphically stunning 3D golf simulation from US Gold/ Access will now sound as good as it looks, and will keep even non-golfers fascinated with its playability and realism.

The final challenge is Domark/ Broderbund's "Prince of Persia", a superbly animated and compulsive arcade adventure requiring both skill and strategy.

- PS/2 type mouse, analogue joystick and stereo speakers.
- Counterpoint® graphical interface providing a mouse driven point and click interface to run MS-DOS functions.
- MS-DOS 3.30.

Business PC

The PC5286 Games Pack contains a powerful PC with a fast access 40 Mb hard disk capable of running business software from word processing to desktop publishing. The PS/2 type mouse

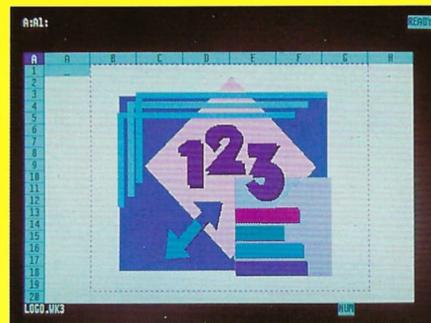

supplied is an essential aid to operate modern Icon driven software such as "Windows" applications - but so often an extra on other PC's.
In fact Amstrad goes a stage further to assist the user, providing "Counterpoint" with the PC5286, one of the most user friendly graphic interfaces available, which provides a mouse driven point and click interface to run DOS functions and to load software applications.
A look-ahead cache on the hard disk, a full 1Mb of RAM, 14" VGA colour monitor and 2 expansion slots* complete the specification, making the PC5286 the obvious choice for games and business applications alike.

*Sound card occupies one slot.
