# PC7286

The PC7286 has been specifically developed as the ideal PC for the entry level user. With its powerful 16MHz 286 processor, 1 Mbyte of RAM, fast access 40Mbyte hard drive and enhanced VGA graphics, it offers the performance you need for all but the most demanding of business applications. To get you started, the PC7286 is shipped with Lotus Works 3.0, the latest fully integrated software package combining word processing, spreadsheet with graphics, database and communications.

Point and click interface for loading software.

What's more, the PC7286 is quite possibly the most user-friendly PC ever launched. Because all the supplied software is already loaded for you on the hard drive, from the very second you first switch on, the PC7286 takes you step-by-step through setting up and using your new computer. All units come shipped with Amstrad Desktop, the easy to use graphical interface, which provides a mouse driven point and click environment to run DOS functions and software applications. A full on-screen tutorial is also supplied, giving you an interactive guide that takes you in simple steps through all aspects of using your Amstrad PC.

To cap it all, the PC7286 is fully covered with a free one year on-site Warranty Repair Service and also telephone hotline support, so even if you do encounter a problem, your computer will be back up and running as quickly as possible.

The PC7286 is available with a choice of three 14" monitors, a flat screen paper white VGA monochrome display, a Hi-Res (0.39 dot pitch) colour VGA display and an Ultra Hi-Res (0.28 dot pitch) colour VGA display. Both colour monitors are also Super VGA compatible.
