Amstrad PC1512DD

- **Used:** 1986 - 1989
- **CPU:** 8MHz Intel 8086
- **Memory:** 512KB
- **Storage:** 20MB hard card (with the strangest sounds), Two 5.25" floppy disk drives
- **OS:** DOS plus 1.2 (a hybrid between CP/M and DR-DOS from Digital Research), MS-DOS 3.2
- **Software:** GEM 1.1 (a GUI ahead of everything else at the time)

Manufacturer: Amstrad

Date: 1986

PC1512

At last! A powerful IBM-compatible personal computer with the popular "Mouse" and software, all at an affordable price.

"MOUSE"

The "Mouse" is the answer to ease of use. Graphics Environment Manager (GEM) from Digital Research is the software behind the mouse and has just one purpose... to make life easier for the computer user. GEM displays information in clear "windows" showing familiar desktop items such as folders and forms. You simply point at the command to be carried out, click the "Mouse" and the job is done. Faster and easier than typing complicated commands. GEM is part of the software provided as standard with the PC1512.

IBM COMPATIBLE

The PC1512 can use all the famous IBM and other MSDOS compatible software, which is quickly becoming the industry standard.

LOW AFFORDABLE COST

The AMSTRAD PC1512 includes the CPU, monitor, keyboard, "Mouse," and lots of software. Simply plug in and GO! Because we've insured that all the features you're likely to need are provided. The economies of scale coupled with AMSTRAD's wealth of production engineering experience have been combined to make the PC1512 the most cost effective PC compatible computer in the world.

AMSTRAD®

"Family-friendly... business-smart"

SOFTWARE

Included with each PC1512:

Microsoft MSDOS V3.2

Digital Research's DOS Plus operating systems

Locomotive Software's powerful GEM BASIC2

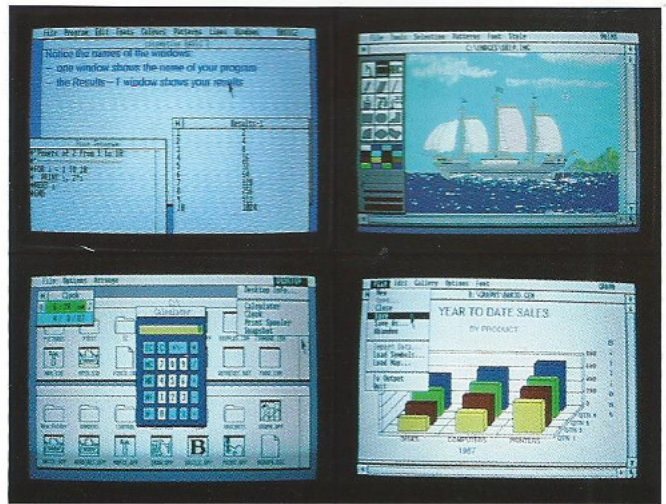

(Top left)

Digital Research's GEM Desktop (Bottom left)

Digital Research's GEM Paint (Top right)

Plus Calculator, Clock, Snapshot, Print Spooler
and many more easy to use utilities

Digital Research has produced a series of applications for GEM and the PC1512. They are: GEM Graph (Bottom right), GEM Write, GEM Chart, GEM Draw, GEM Wordchart and GEM Diary. Many other popular Business software titles also work well with the PC1512, such as Lotus 1-2-3, Wordstar, Superbase, PC File and more.

SPECIFICATIONS

- 512K memory expandable to 640K
- 16 Bit 8086 operating at 8MHz
- 5¼ inch disk drive(s) 360KB
- 20MB optional hard disk
- 80 column display, standard monochrome features paper white with 16 grey levels, optional RGB Color with 16 colors, CGA graphics
- Tilt and swivel monitor stand
- Quartz real-time clock with battery back-up
- Serial and parallel ports with flow control over the serial port
- PC-XT style keyboard
- Joystick port built into keyboard
- 3 PC compatible hardware expansion slots
- Speaker with volume control
- Microsoft compatible "Mouse" and "Mouse" port
- IBM PC compatible

DIMENSIONS

System Unit — 14.7" W x 15.1" D x 5.3" H, 13.4 lbs. single drive, 17.1 lbs. double drive

Keyboard — 18.3" W x 6.3" D x 2.3" H, 2.6 lbs.

Monochrome Monitor — 13.8" W x 11.8" D x 12.4" H, 16.4 lbs.

Color Monitor — 14.7" W x 14.4" D x 13" H, 25.6 lbs.
