

The new
PcW RANGE
of Wordprocessors

PcW9256

AMSTRAD

The Range

The new Amstrad PcW Range has been designed for both home and business use.

A complete word processing system that's easy to use, and which offers many of the facilities available on PC's. The CP/M Plus operating system supplied with your PcW wordprocessor enables the use of spreadsheet, database and even desktop publishing software.

There are two versions available, the PcW9256 with Dot Matrix printer and the PcW9512+ with 512k RAM and a high quality Daisywheel printer

including automatic Sheet Feeder. Both

versions are supplied with LocoScript easy to

use word processing software, monochrome

screen and 3.5" 720k floppy disk drive.

However, if you require almost silent operation with speed, laser print quality and flexibility the

PcW9512+ is also available with an ink jet

printer (Canon Bubble Jet BJ-10e).

PcW9512+

with Daisywheel Printer

The PcW9512+ has all the features of the PcW9256 but with a daisywheel printer, to give perfect letter quality print, an increased 512k of memory, and LocoScript 2 word processing software - which includes a 78,000 word dictionary, spellchecker and a mailmerge facility.

The 15 inch carriage daisywheel printer includes an automatic sheetfeeder, enabling maximum use of the mailmerge software - up to 30 sheets can be loaded at a time and then printed unattended.

LocoScript 2

LocoScript 2 has been specifically written to provide all the major features and facilities expected on a professional stand-alone word processing system and yet to be as simple as possible to use. Features such as search and replace, simultaneous printing and editing, cut and paste and automatic paragraph alignment are all easily available.

LocoMail enables the user to merge mailing lists with documents producing personalised letters. What's more, even invoices can be prepared with simple arithmetic functions automatically performed.

FEATURES

512k System RAM.

Built-in 3.5" 720k floppy disk drive.

Paper White high resolution 90 x 32 character monochrome monitor.

PC style 82 key keyboard.

Built-in parallel Centronics interface.

Daisywheel Printer with 15" platen and exchangeable daisywheel.

Automatic Sheet Feeder supplied as standard.

LocoScript 2 word processing software.

LocoSpell spellchecker with 78,000 word dictionary.

LocoMail mailmerge software.

CP/M Plus operating system with GSX, Dr LOGO and Mallard Basic.

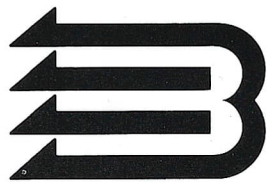

PcW9512+

with BJ-10e Bubble Jet Printer

The BJ-10e transforms the performance of the PcW9512+. It is several times faster than the daisywheel printer, almost silent in operation and capable of printing an unlimited range of fonts* and type sizes*. The Bubble Jet's high quality output has a resolution of up to 360 dots per inch - better than most laser printers!

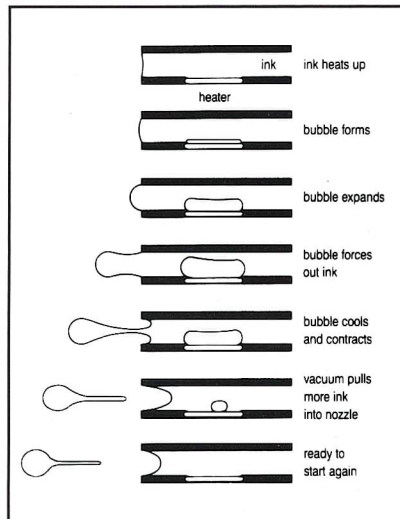

With suitable software the PcW9512+ and BJ-10e can be used to produce quality desktop publishing with tints, drawings and even scanned photographs included on a page.

The BJ-10e combines the speed and versatility of a dot matrix printer with similar quality to a daisywheel printer and the near silent operation of a laser printer - and all in a portable 2kg package.

BUBBLE JET

How Bubble Jet technology works

FEATURES

Uses latest Bubble Jet technology.

High quality letter printing output at up to 360 dots per inch.

Almost silent in operation (less than 45dBA).

Fast and efficient high quality printing output at 142 characters per second.

Optional 30 sheet automatic paper feeder available for easy printing of multi-sheet documents.

Long lasting economical ink cartridge printing approximately 700,000 characters in high quality mode.

* Subject to software being used.

Printer can be clipped to monitor to save desk space.

PcW9256

with Dot Matrix Printer

The UK's top selling wordprocessor has now been both improved and re-styled. With 256k of memory and LocoScript word processing software, but now featuring a 3.5" disk drive and paper-white monochrome screen. The Amstrad PcW9256 offers the ideal solution for business and domestic users alike.

Open the box, fix on a single mains plug, attach the keyboard and printer to the screen unit, insert the master disk and you are now ready to start word processing.

With the "user friendly" software of the PcW9256, word processing need be no more complicated than using an electric typewriter - although as you absorb more of the fundamentals and skills, you can progress further to take advantage of some of the most powerful word processing software available. LocoScript will take you through a series of plain language menus that will help you create your document just the way you want it.

Your work can be saved and stored using the built-in disk drive. Each 3.5" disk holds some 720,000 characters - since an average A4 page contains between 1000 and 1500 characters, that's quite a tidy alternative to 200 or more folders.

FEATURES

256k System RAM.

Built-in 3.5" 720k floppy disk drive.

Paper White high resolution 90 x 32 character monochrome monitor.

Full size 82 key keyboard.

Fully integrated Dot Matrix Printer with numerous high speed draft and letter quality options.

Automatic single sheet loading lever.

LocoScript 1.5 word processing software.

CP/M Plus operating system with GSX, Dr LOGO and Mallard Basic.

SPECIFICATION

PCW9256

Memory	256k RAM
Disk Drive	1 x 3.5" 720k, (facility to add second drive)
Display	Paper white 12" monochrome screen with 90 columns x 32 lines displayed
Keyboard	Full size, with 82 keys
Supplied Software	LocoScript 1.5 word processing software, CP/M Plus, (Mallard BASIC, GSX graphics enhancement, Dr Logo educational training language*)

DOT MATRIX PRINTER

General	9 pin dot matrix printer
Speed	Up to 20 cps (high quality) 90cps (draft mode)
Accessories supplied as standard	Detachable tractor feed, single sheet loading system. Note: no other printer can be used with the PCW9256

PCW9512+

Memory	512k RAM
Disk Drive	1 x 3.5" 720k, (facility to add second drive)
Display	Paper white 12" monochrome screen with 90 columns x 32 lines displayed
Keyboard	Full size, PC style with 82 keys and adjustable legs
Supplied Software	LocoScript 2 word processing software, LocoMail, LocoSpell, CP/M Plus, (Mallard BASIC, GSX graphics enhancement, Dr Logo educational training language*)
External Connectors	Parallel Printer Port

DAISYWHEEL PRINTER

Speed	Bi-directional printing at 20cps
Paper Handling	Automatic paper loading by bail bar action
Type Sizes	Daisywheels available in 10, 12 and 15cpi
Carriage Width	15"
Accessories supplied as standard	30 sheet Automatic Sheet Feeder, removable tractor feed

CANON BJ-10e BUBBLEJET PRINTER

Print Speed (Draft and High Quality modes)	83 cps (10 cpi), 100 cps (12 cpi), 142 cps (17 cpi)
Resolution (H x V)	360 x 360 (High Quality mode), 180 x 360 (Draft mode)
Paper Weight	52-90g/m ² (Auto Sheet Feeder), 52-105g/m ² (Manual feed)
Internal Typefaces and Pitch	Courier, Prestige Elite at 10, 12 or 17 cpi and Proportional Spacing
Print Head	64 nozzle Bubble Jet head
Emulation	IBM [®] Proprinter™ X24E
Interface	Parallel (Centronics [®]) type
Dimensions	310 mm (W) x 216 mm (D) x 48 mm (H)
Weight	Main unit: 1.8 kg (approx) A/C power adaptor: 0.6 kg (approx)
Power Source	A/C adaptor (standard) AC 240V 50Hz 25W, NiCad battery pack (optional)

In keeping with our policy of continually improving our service, value for money and the technical quality of our products, we reserve the right to change component type, manufacturers, sources of supply and technical specifications at any time. Dimensions, speeds, weights and colours contained in this brochure are approximate. Prices and products may be altered without notice at any time. All products subject to availability. All software is sold subject to standard licence forms. Please note that whilst every care has been taken to ensure compatibility with existing CP/M software, some packages available make use of undocumented features of the CP/M operating system and these may not be supported by the PCW9256 or PCW9512+ implementation.
