A MESSAGE FROM THE USER CLUB

Dear Customer,

Welcome to the Summer '89 edition of the Official Amstrad User Club and Amsoft Mail Order Catalogue.

Throughout the catalogue you will find two different pricing structures. Our Non-Members price is the normal Recommended Retail Price of the product, and our Members price is the special discounted rate for Members of the Official Amstrad User Club only!

This is just one of the many benefits of club membership, but if you're not yet a member, don't worry, full subscription details can be found within the catalogue.

Members and Non-Members alike can order with confidence in the knowledge that Quality Control from Amstrad Plc, together with our own comprehensive vetting system here at the User Club, ensures that all stock items are top-grade products.

If you need any product not illustrated in the catalogue, help is at hand — simply contact our Product Acquisition Department on 091 5108787 and we'll do our best to locate and despatch it to you — usually at the best price in the U.K.

Our range of catalogues include separate CPC, PCW and PC/PPC editions, so if you'd like to order additional copies, just ring or write and we'll despatch them immediately.

We hope you gain as much pleasure reading this catalogue as we've had in compiling it, and hope to continue providing an excellent Service for you — The Amstrad Computer User.

Kind Regards,

Keith Patterson
GENERAL MANAGER
THE OFFICIAL AMSTRAD USER CLUB AND AMSOFT MAIL ORDER

A MESSAGE FROM AMSTRAD'S CHAIRMAN

Dear Amstrad Computer User,

You don't need me to remind you that you have selected the best computer in its price range. Numerous journalists from the specialist press have now contributed to the opinion that Amstrad computers represent the best all-round machine you can buy.

One of the many reasons why computer journalists have received our products so enthusiastically is undoubtedly our careful attention to providing information on the system and its software.

You can be a part of Amstrad's ongoing effort to inform and help users by taking advantage of this opportunity to join the User Club. There are many immediate and direct benefits available:

So don't delay before filling out the relevant application form inside this catalogue, and sending it back to Amsoft.

Yours sincerely

Alan M Sugar
Chairman
Amstrad plc

* All Amstrad PC, PCW AND PC2000 machines sold by the User Club include a 12-month Dictaphone Service agreement.

Dictaphone Service Agreements

The Official Amstrad User Club can supply you with Dictaphone Service Agreements for your computer system and printers.

Dictaphone are a world leader in office equipment design with over 70 years experience and provide quality care to ensure optimum reliability and performance.

Your local engineer can ensure that you are personally satisfied with the service provided, and with over 100 engineers, Dictaphone really are local.

The cover provided by the agreements includes:

- ★ An unlimited number of service calls during normal working hours.
- ★ All labour and travelling time.
- ★ All travelling expenses.
- ★ Free repair or replacement of any part of the equipment hardware in the schedule which has failed during normal use.
- ★ Repair of the equipment in the Company's workshop if in the opinion of the Company such repair is necessary.

Comprehensive cover for members starts from as little as £30.00 — a small price to pay for peace of mind and quality care.

Ring 091 510 8787 for full details of the Dictaphone Agreements for your computer system now!

THE AMSTRAD FIDELITY LEISURE RANGE

The Audio Range

CDX400

The CDX400 is a computer midi system with CD for an amazing £199 bringing the reality of original performance into every home and making the scratch and hiss inevitable with vinyl records a thing of the past. This high quality compact disc system is combined with twin cassettes, a 3 wave band tuner with FM stereo, a 5 band graphic equaliser, a skip facility on the CD to search for your favourite track, and a belt drive turntable. In stylish black, the midi system has a clean, modern design, to integrate perfectly with the home.

CODE: CDX400

USER CLUB PRICE £199.00

Amstrad Fidelity CDX400

A complete midi system with CD for only £199.

Also features twin cassettes, three band tuner with FM stereo and belt drive turntable.

CDX500

This top of the range model combines brilliant sound quality with the most advanced design features. The CDX500 has a built in CD player and boasts a remote control handset, digital tuning, 40 watts output, Dolby noise reduction, auto-seek tuning and a CD repeat facility for immediate replay.

CODE: CDX500

USER CLUB PRICE £299.00

The Amstrad Studio 100

For up and coming bands and budding DJ's tired of listening to somebody else's music, the new Amstrad Studio 100 has all the answers. It is a unique feature packed sound system that combines a midi hi-fi with a four track recording studio and DJ music, mix the music as well as listen to the music! The four track recording studio comes complete with four microphones, a pair of 'cans' and a drum and music backing tape. Producing 'demo' tapes is made easy by plugging instruments into the studio and listening to the results direct from the speakers. Once perfected, the sounds can be recorded onto tape blending the different tracks. Transform the studio 100 into a DJ console and use the volume sliders to fade in and out and a microphone to voice-over records and tapes for the professional touch. For special events, plug the studio into a PA system for greater amplification. The studio 100 also offers all the top quality features you would expect from a midi-audio system. There is an FM, LW and MW tuner, graphic equaliser and a powerful output of 40 watts (MPO).

CODE: STUDIO100

USER CLUB PRICE £299.00

Picture shows Amstrad Fidelity Studio 100.

The Televideo Range

Combine top quality television and video in one compact and stylish unit — the Amstrad Televideo. The Televideos offer state-of-the-art technology without the need for unattractive storage units and reduce the number of unsightly wires to one for an uncluttered look.

The TVR3

The TVR3 has a bright 20" screen and is ideal for family viewing with one dual infra-red remote control over TV and video from the armchair. Needle sharp images are displayed on the four main stations whilst twelve spare channels leave ample room for satellite or cable TV. Two tuners mean that you can record on one channel whilst watching a programme on another. The video can be

programmed with five events up to 14 days ahead, and can be set to record automatically at the same time on the same day. Focus in on the action with the 'speed search function' and traditional scan and freeze frame facilities. An automatic rewind facility is incorporated, as well as an eight-hour long-play facility.

CODE: TVR3

USER CLUB PRICE £499.00

Picture shows Amstrad Fidelity TVR-3

TVR2

The compact TVR2 with its bright 14" screen is the ideal second set for the bedroom or study with full remote control for ease of use and a single tuner. Essential features for recording and playback found in the TVR3 are also available in this neat version of the versatile Televideo. This all-in-one package makes an ideal sales demonstration model.

CODE: TVR2

USER CLUB PRICE £399.00

Picture shows:
The Amstrad TVR2 combines a top quality 14" colour TV and video with remote control in one compact, stylish unit.

The Video Range

Amstrad Fidelity has introduced the 'Easy Programmer Videos' so that everyone in the family from kids to their parents can record all their favourite programmes. A specially designed remote control handset takes you through the programming process with a series of simple 'questions and answers'.

What day will the programme be broadcast?
What week will the programme be broadcast?
What channel is it on?
What time does the programme start?
What time does the programme end?

All you have to do is check the final details displayed on the small LCD screen. The remote then asks you to point it at the video — it's as simple as that.

THE AMSTRAD FIDELITY LEISURE RANGE

The VCR6000

The VCR6000 'Easy Programmer' has up to eight hour record and play back which doubles the length of any standard tape. The VCR6000 provides top quality pictures and can record up to six programmes, fourteen days ahead. A Quick Record control allows the viewer immediately without setting the timer.

CODE: VCR6000

USER CLUB PRICE £299.00

Amstrad Fidelity VCR6000 'Easy Programmer' Video

A high quality video recorder with specially designed remote control handset for a step by step guide to programming.

Also features eight hour record and playback, recording up to six programmes, fourteen days ahead.

The VCR6100

This top-of-the-range 'Easy Programmer' machine has all the features of the VCR6000. In addition, it has an indexer to help you find your recordings, and a unique integrated Bar Code reader to make programming even easier.

CODE: VCR6100

USER CLUB PRICE £349.00

The Amstrad Videomatic Camera

The Amstrad Fidelity Videomatic is the 'Instamatic' of video cameras. It is a simple one touch 'point and shoot' camcorder that is light enough for any member of the family to use. To operate, simply load the EC30 tape which is included in the outfit, flick the power switch on and then aim, frame and shoot. The automatic microphone ensures that the video has a perfectly synchronised running commentary throughout. Best of all, there are no lengthy processing procedures. All you have to do is slip the tape into the motorised VHS-C adaptor provided and watch the results on any standard VHS recorder, instantly. The Videomatic sports automatic focus, iris and automatic power cut out and a safety lock, 'on/off' switch for ease of use. The Videomatic comes complete with a rechargeable 1.5 hour battery, a dual voltage combined AC mains adaptor/battery charger and a shoulder strap.

The Receiver Unit.

The Amstrad Fidelity 16 channel receiver unit is not only simple to use but stylish in design, and no larger than the average clock/radio.

The Dish.

The Amstrad Dish is only 60cm in diameter and efficiently captures signals generated by the Astra Satellite and transfers those signals via a cable to the receiver positioned on your television.

Installation

Installation nationwide of all Satellite systems sold by the User Club is taken care of by KBS Ltd. for just £50 plus VAT which includes fitting all cabling and a 12 month guarantee!

We offer two models, the SRX100 and the SRX200 with the added feature of remote control.

The Amstrad Satellite System

The world of Satellite Television has truly arrived with the launch of the Astra Satellite in November 1988 and Sky Television in February 1989. To get started in the amazing world of Satellite Television all you need is the Amstrad Fidelity (PAL) SRX100 satellite receiving package, which consists of the latest in PAL satellite receiver design and a 60cm parabolic Satellite receiving dish, and all for less than the cost of a video recorder!

16 Channels!

Open your living room up to a potential 16 new additional channels of high quality entertainment for a price which is out of this world. Sky Television alone incorporates 4 channels. SKY CHANNEL — a careful and selective assortment of programmes highlighting all that is best in family entertainment. SKY NEWS — an 18 hour, 7 days a week News Channel, EUROSPORT — for coverage of the best events as they happen and, SKY MOVIE — a channel which exclusively broadcasts feature films. There are also up to 12 additional channels from all over Europe!

Training

THE COMPLETE INTRODUCTION TO CP/M COMPUTING FOR THE CPC6128

No more struggling with the user instruction manual! Due to an overwhelming demand from our members, we can now offer CP/M training for CPC6128 users. The Reel Time self-teach course has been specially developed to help you learn at the pace you choose. Crammed with practical examples and tips, it's fast, effective and enjoyable. It includes everything you need including step-by-step instructions with no jargon!

AUDIO TUTOR TAPES — Listen to the tapes on an ordinary cassette player at home, in the office — or even in the car.

TRAINING ON DISC — the disc contains exercises and interactive tutorials for you to follow on your own computer.

ELECTRIC BOOK — read them on your computer just like an ordinary book but with many extra features — automatic searching, instant page-find and electric bookmarks.

Tinysoft Software — Tinysoft training software is a set of working programs you can use after the course — Tiny Mail organises your name and address lists while Tiny Calc is a simple spreadsheet. The pack covers everything you need to know to use CP/M effectively 'Hardware' versus 'Software'. The CP/M Operating System, Using DISCKIT & DIR, Changing the active drive, System files, Resetting the computer, Built-in commands, DIR command options, The SHOW & TYPE commands, How to use "wildcard characters", Formatting a disc, Copying, erasing & renaming files, CP/M control codes, Performing a series of commands, "Applications software", Spreadsheet functions — TinyCalc, Numerical values and calculations, Database functions — TinyMail, Adding new records, Finding and updating records, Sorting and listing records, Programming — using BASIC and much more!

CODE: CPC01THS **MEMBERS £29.25** **NON MEMBERS £34.45**

TRAINING IN OUR CENTRES
Why not learn CP/M computing in one of our nationwide network of Learning Centres for either a full or half day's course? Our courses are taught by qualified and experienced trainers and the centres are all easily accessible in city centre locations. Ring 091 510 8787 now for full details, or look in the PC and PCW Training sections of this catalogue!

EDUCATIONAL

Animal/Vegetable/Mineral (Age 7-Adult)

The child is requested to think of an object that is either animal, vegetable or mineral. The program will now try to guess what the child has thought of. It asks questions about the object and then guesses what the object is.

If the program does not know the object then the child can 'teach the computer' about the object. The child also needs to give the program information to tell the object apart from the other things it knows. At the start the program knows only a little, so it is easy to teach the computer things. The more it knows the more the need to look things up! The information stored can be saved and reloaded at any point in order to continue to build up what the computer knows at a later date.

TAPE CODE: SOFT104 **MEMBERS £8.45** **NON MEMBERS £9.95**
DISC CODE: SOFT1104 **MEMBERS £12.70** **NON MEMBERS £14.95**

Answerback Junior Quiz (Age 6-11)

The Answerback Junior Quiz provides a unique adventure in education by allowing successful challengers to participate in a simple and compelling game. The software package contains a highly sophisticated control program and has thought provoking quizzes, each covering a different topic in general knowledge for children aged 6 to 11. An enormous total of 750 well-researched questions with 3000 answer options available but you tell the computer how many you want and on what topic. Should you ever tire of the fascinating quizzes, you can use the powerful yet simple creating, editing and saving commands to produce a multitude of quizzes to your own design.

Features include:
Enticing sound and colour graphics
Multiple choice answers
True or False?
Find the missing letters

was prepared by a best selling English language author and is a welcome relief from the mini-dictionary style. The course is highly structured offering exceptional value for money. One reviewer has this to say of the Amstrad CPC version "There's a gamesy feel to it with wacky sounds as you key in the answers and a laser base that comes and blasts your score. The sections are well chosen to cover most spelling errors.

An exciting new way to improve your spelling, this courseware package concentrates on all the key areas of English spelling. Real value for money with up to 16 menu options. Prepared by an English language author.

Chemistry Revision

This disc contains eight programs to aid your chemistry revision. The first program tests your existing knowledge so that you can see where your strengths and weaknesses lie. The next six programs concentrate on topics which often cause difficulty. The programs also allow you to practice exam techniques such as multiple choice and multiple completion. The final program allows you to keep notes during your revision. The notes can be saved for future reference. The programs have been designed and tested by chemistry teachers working in schools with pupils taking both 'O' level and CSE examinations. The GCSE syllabus has been taken into account in the design of these programs. The main topics covered include:

Separation techniques
The atom and its structure
Isotopes
Structures of solids
Bonding

Fun School 2 (for the Under 6's)

The Fun School 2 range consists of eight colourful and exciting programs that have been carefully designed by a team of educationalists.

The computer itself monitors the child's progress. The skill level — initially set by the parents — is automatically adjusted to suit the child's ability. Now children can enjoy using their parents' computer while learning at their own pace.

Fun School 2 for the Under sixes consists of:
Shape Snap: Colourful shape recognition
Find the Mole: Experiment with number sizes
Teddy Count: Ideal introduction to numbers
Write a Letter: Creative fun at the keyboard
Colour Train: Play at spotting colours
Pick a Letter: Easy steps to word building
Spell a Word: Enjoy naming the pictures
Teddy Bears Picnic: Move around a maze

Giant Killer (Age 9-14)

In this best-selling mathematics adventure you start — as Jack or Jackie with the inescapable task of going to market to buy a pig. Discovering this to be impossible, you are left with no other option but to go exploring. Only by finding the Giant, the treasures — and by solving all the puzzles (calculator work, spatial investigations, co-ordinates, topology, tessellations, mapwork, etc) — can you win the maximum score of 250 points.

Geography Quiz Mapwork (Age 10-Adult)

This is the best program of its kind, utilising graphic screens to give excellent maps of Britain and Ireland. The program involves identification of locations and physical features. BBC version prints maps and tests for its class.

The program has many superb features such as the ability to enter your own answers to queries. Using excellent maps you can trace rivers, lakes, mountains, towns, inlets and physical features of Britain and Ireland. This is the most thorough and interesting program of its type on the market.

Happy Letters (Age 3-6)

A column of letters appears on the screen. A moving letter gradually moves down the column. The child needs to press a key when the moving letter is the same as the one opposite. When correctly matched, a fish swims out from the side and eats both letters before swimming back with a smile. If wrong letter matched, then the child is given another go. Only if the second attempt is also wrong does the program show which letter gives the correct match.

Later stages teach the child to match the capital and lower case letters, and to match a key with a letter on the screen. The speed of the program can be set according to the skill of the child.

Happy Letters records all the answers a child gives and consequently, children's progress can be checked very easily.

Happy Writing (Age 3-6)

The program draws out bright coloured letters, numbers or words, with the moving 'magic pencil' point showing clearly where to start the figure, which direction to take, and where to end. The speed with which the figure is drawn out can be adjusted to suit the user. The set of three figures or the word is initially drawn out on the top of the screen, between the lines pulled across by the tractors. The pencil then appears and the program waits for the child to press the space bar and begin to follow on paper each figure as it is drawn out on the screen. A pause is allowed between each figure and a tune played as a reward for each figure completed.

TAPE CODE: SOFT1106
DISC CODE: SOFT1106

MEMBERS £8.45
MEMBERS £12.70

NON MEMBERS £9.95
NON MEMBERS £14.95

Happy Numbers (Age 3-5)

The program first draws a large clear figure between 1 and 9. The child has to find the matching key on the keyboard. Each time the child presses it, a flower appears. The child needs to collect the right number of flowers to match the figure. Success is rewarded by a smile and entertaining sound and visual effects.

If the child makes a mistake then the 'Happy Face' grimaces, the program shows what was wrong, and then allows the child to learn the correct answer.

If the child finds some numbers difficult then the program can be set to give the child more practice on those numbers. The program notes the child's answers so that progress and problems can be readily seen.

Micro English

Complete course taking users from 8 years to GCSE Level. It consists of 24 easy-to-use programs and includes around 600 questions. Some programs include real speech, so the computer appears to teach the student by speech and the written word, as a private tutor would. The program can be easily adapted to include the student's own spelling tests and questions. The course emphasises not merely the rules of English, but more importantly their application in practice, with an unlimited number of questions set for either normal or multiple-choice questions. It is also for those learning English as a foreign language. The subjects covered include punctuation, elementary and advanced spelling, vocabulary tests, figures of speech and arrangement, words commonly confused, irregular plurals, word reduction for summaries, 8 passages to be summarised, and 8 comprehensive tests.

Map Rally (Age 7-13)

Somewhere on a grid are three hidden checkpoints. The navigator can only give the rough direction in which they lie. The car is moved across the grid by giving instructions as to where it needs to go to. When the checkpoint is found, the player must check in. A player can race against the clock or two cars can race against each other. Children soon become used to using co-ordinates and compass directions to control the cars. The program records the time and number of moves taken. After the rally, the children can watch the cars drive around each route taken showing how well each car did.

Magic Maths (Age 4-8)

"Here at last is a program that really does merit the term educational game, a program which uses the graphics and sound of the Amstrad to try and liven up the learning process. I suspect that the targeted age group would enjoy as well as learn from Magic Maths" (Peter Connor Editor Amstrad Action April '86).
 "A serious challenger to similar BBC programs" and "a good example of its type" said Primary Teaching and Micros (UK).
 The game idea is simple but effective: the operands in the questions — addition or subtraction are displayed on railway carriages at the bottom of the screen on Amstrad CPC. If you get it right, the train's speed increases by 10 m.p.h. The aim of the game is to get up to 100 m.p.h.
 TAPE CODE: MAGIC001 MEMBERS £9.30 NON MEMBERS £10.95

Maths Mania (Age 8-12)

It does the job it sets out to do. My son (nearly nine) has been sneaking downstairs before breakfast to play. Evidently it appeals to the age group at which it is aimed. Reviewing on BBC TV CEEFAX. This program is similar to Magic Maths in design but its educational content is different and for a different age group. Like Magic Maths, it also has a scrolling score sheet which will retain full details of performance and indicate areas of weakness. The program offers the child a challenge, encourages with lively responses, stimulates interest through the use of a lively game and has excellent graphics and sonic effects. The emphasis is on multiplication and division with many levels of difficulty to suit different ages and abilities. There are different versions of the program on the various machines.
 TAPE CODE: MATHS001 MEMBERS £9.30 NON MEMBERS £10.95
 DISC CODE: MATHS0001 MEMBERS £14.40 NON MEMBERS £16.95

Maxi Maths (Age 9-14)

Teaches basic geometry with graphic demonstrations. There are tutorials which give lessons on angles, triangles, circles and rectangles. The learning is reinforced with good graphic demonstrations which make excellent use of the computer as a teaching aid. The program can be used to draw circles, triangles and so on. You also get assignments to test your knowledge of a selected subject area. There are courses on each of the following:
 1. Triangles 2. Rectangles 3. Angles 4. Circles
 5. Sin Co Tan
 A highly interactive program such as BASIC GEOMETRY provides a very stimulating learning environment. This course would be most useful for a student in the early stages of a GCSE course who wished to revise material. The program represents excellent value for money in that one is covering all five topics for the price of one.

Osprey!

In the world of computer games it's common to find birds of prey threatening the survival of their human opponents, usually on some inhospitable planet light years from our own. In reality, as 'Osprey!' vividly reflects, the situation is just the opposite. Man is the more menacing predator and for a hostile environment you need to look no further than the highlands of Scotland. Developed in conjunction with the RSPB (and based on their site at Loch Garten in Scotland), 'Osprey!' is a highly original game intended to illustrate the complexity of wildlife conservation. Given the responsibility of protecting the precariously small Scottish Osprey populations, you have at

your disposal a team of wardens. They will enable you to keep egg-stealers at bay, prevent huntsmen from shooting the birds, and control the ever-inquisitive tourists who can easily disturb the nests. After allocating the wardens to their duties you can see how successful your strategy has been. And, as in real-life, certain factors (like the weather!) remain beyond your control. So the problems of ensuring the Osprey's survival are by no means straightforward — as the RSPB will tell you.

Physics Revision

The disc contains nine programs to aid your physics revision. The first two programs test your existing knowledge so that you can see where your strength and weaknesses lie. The next six programs concentrate on topics which often cause difficulty. The final program allows you to keep notes during your revision. The notes can be saved for future reference. The programs have been designed and tested by physics teachers working in schools with pupils taking both 'O' level and CSE examinations. The new GCSE syllabus has been taken into account in the design of these programs. The main topics covered include:
 Ray diagrams for mirrors and lenses
 Heat transfer mechanisms
 Heat capacity and latent heat
 Linear expansion of metals
 Gas laws
 Circuit analysis
 Electrostatics and electromagnetism
 Equations of motion with constant acceleration
 Waves
 Radioactivity and radiation

Timeman One (Age 4-9)

The program draws a clock and places a man halfway up a ladder. The program asks "what time is it?". If the child answers correctly, then the man climbs two steps up the ladder. When an answer is wrong, then the man goes down a step. The program tells the child what was wrong and gives the child another go. If the second try is wrong, then the program shows the correct answer. When the child obtains enough correct answers for the man to reach the top, he dances a jig at the top and plants a flag. Each time he gets to the top he earns another flag. The program has three stages for telling the time. The first stage introduces the hour hand, the second the minute hand and the third stage combines the two. Having learnt to tell the time, the program provides three similar stages to enable children to set the clock, in each case helping children when an incorrect answer is entered.

Tutor Programs: Study Aids for GCSE and Degree Students

THE PRIMARY FUNCTION of the Tutor programs are to test the student's grasp of knowledge already acquired from other sources, either from the set texts in the case of English Literature, from recommended reading, from school text books, or from teacher's notes, and to reinforce the student's confidence that some of the essential facts have been mastered. The programs are NOT intended to be a substitute for reading and discussion, nor are they to be thought of as self contained teaching units though each package includes a Booklet of advice and further reading which could be used as a basis for distance learning.

Wordhang (Age 5-Adult)

The program selects a mystery word which appears as a series of dashes. The object is to discover what the word is by choosing appropriate letters. If the letter chosen is part of the word, then it is shown in its correct position. Gradually the word appears as more and more correct letters are chosen. When a letter does not appear in the word — part of a man is drawn. He has only ten parts, after ten wrong letters he will hang! He can only be kept alive by using your language ability. The program already knows over 250 words. You can add as many more words as you like. A player can race against the clock or play against someone else.

World Wise (Age 7-15)

This program is attractively different from most in that a child can teach the computer instead of the other way around. Both the child and the computer learn a great deal whilst using this program! The child can put in already familiar items or can research something new. As a result, the program can be used at a level to suit the skills of the user. The child first thinks of a particular geographic feature. The computer then tries to guess what the child is thinking of by asking questions. If the computer gets it wrong, then the child can 'teach it' by typing in the object and a particular distinguishing feature. It motivates the child to find information in order to tell this object apart from other things the computer knows. The program can be used for features such as rivers, towns, lakes, etc., or in the wider context of world geography, such as mountain ranges.

4 Soccer Simulations

A compilation of 3 new soccer games designed to compliment each other to cover all aspects of this immensely popular sport. The four games are:
★ 11-a-side Soccer: The full league game with all the rules.
★ Indoor 5-a-side Soccer: Fast action. The ball bounces off the walls so there are no delays with corners or throw-ins. A true simulator.
★ Street Soccer: Soccer with no rules... Fouling allowed but don't start a fight. Watch out for the cars and don't lose the ball over the fence.
★ Soccer Skills: Skill training including press ups, weight lifting, sit ups, bar jumps, penalties, dribbling, sprints and goalie practice.

Amstrad users can have four people playing at the same time, with no extra hardware.

1943 The Battle of Midway

It was over 40 years ago, at the height of World War II that the Japanese navy sampled the bitter taste of defeat at the hands of the U.S. Fleet. Some say that the Battle of Midway was the turning point of the war, and that under different direction, we may now all be living under the shadow of the Rising Sun. 1943 gives you all the opportunity to take the controls of a magnificent P38 fighter, armed with six secret weapons, to relive the titanic struggle for supremacy against battleship Yamato and its legions of defences. You are in the hot seat ready to relive the historic Battle of Midway, on a mission to destroy the battleship Yamato.

Features include:
★ Collect the 'Power Up' pods and increase your firepower, choose from one of six secret weapons.
★ Press the roll key and do the famous loop-de-loop to avoid the torrents of bullets bombarding you.
★ Simultaneous two player action.

Could this be your chance to change the course of history... ?????

Alex Higgins World Pool

At the start of play, seven spotted balls and one black ball are placed in the form of a triangle near one end of the table. A white ball known as the Cue ball, sits within a 'D' shape drawn on the baize at the other end of the table. The player must strike the white ball, such that it hits the back of the balls. If any of the striped or spotted balls are knocked into a pocket (pocketed), the player must subsequently during the game try to pocket balls of that type only. If no balls are pocketed from the break the players continue, alternately, until such time as a ball or balls are pocketed. The first ball to be pocketed, determines a players group by default. If the first time a ball is pocketed, a ball of the other group is pocketed as well, the player may take his choice of group, and this choice will be indicated by the group of the next ball to be struck.

Badcat

It's the year 1988 and Seoul for the Olympic Summer Games. The dignitaries and celebrities prepare their speeches and await the huge crowds expected to attend. Beware — there are still the straying City-Dweller Cats — despised by all. The infamous cats are well known for they are planning their own competitive game. Will Bad Cat live up to his name?

There are 4 venues in each level, you can only continue to the next once you have qualified by completing the tasks and overcoming the obstacles within the time allowed. The 4 venues are: The City Park; The Arena; The Sewer; and The Pub.

The games start at the first venue. Upon finishing you have to proceed to the next venue by means of completing an interlude stage. As you progress, each venue is reached through an interlude. After your exciting adventure you may gain permanent recognition on the high score table.

With obstacles such as water jumps, swings, ball balancing, cradle across crossbars, and many more. Skill, speed and the will to win are essential to retain the name BAD CAT.

Beyond the Ice Palace

Beyond the Ice Palace and to the North, legend tells of a mystical land where strange creatures dwell. It is a land of fantasy and magic, of goblins and ghosts, of good and evil in these lands. Recently there has been great upset in the balance of good and evil in these lands. The forces of evil have been burning down the forests, destroying the homes and lives of the simple woodcutters. One night, a meeting was held between the ancient and wise spirits of the woods. A decision was made to appoint a single person to be responsible for returning the balance to the lands once again by banishing the evil back from where it came. They blessed a sacred arrow with the powers of the woods, which would summon a spirit in times of need, and shot it into the air, whoever found the arrow would find themselves in an adventure of fantastic importance . . .

Battle of Britain

July — October 1940
The Battle of Britain has gone down in history as one of the most courageous battles of WWII culminating in the defeat of the German Luftwaffe's attempt to gain air superiority prior to Operation Sealion, the proposed invasion of Britain. In the words of Winston Churchill "never has so much been owed by so many to so few"

BATTLE OF BRITAIN — the game — puts you in control of Fighter Command and the computer simulates the operations room. Your task is to deploy your aircraft against incoming squadrons of the Luftwaffe, whilst bearing in mind the problems of limited flying time, ammunition, available landing strips and the size of the incoming forces. You can also test your arcade skills in the optional Spitfire flight simulator and by firing an anti-aircraft gun in ground to air battles. We give three different game options. 1. The Training game lets you learn the game without being under too much pressure, 2. Blitzkrieg is an all out attack by massed Luftwaffe squadrons and 3. Campaign game is played over 30 days of the real battle with a save game feature.

Battle for Midway

4th June 1942.

You are in command of the U.S. Pacific fleets 6 months after the Japanese attack on Pearl Harbour. The battle for Midway marked the turning point of the battle for the Pacific. If the Japanese had invaded Midway Island it would have given them a stepping stone to attack firstly Hawaii and then mainland United States, possibly changing the outcome of WWII!

BATTLE FOR MIDWAY — the game — is played on three levels. Firstly you are given a large scale map showing an overview of all your forces. Secondly you have constantly updated details of those forces down to the last fighter plane. Thirdly we give you an arcade representation of the battle and your forces at every stage.

Basket Master

Basket Master... the latest sports blockbuster!

An all-action bonanza as you face either the computer or take on your friends in a frantic head-to-head tussle with one of the fastest sports around.

Stay on your toes as you dribble the ball down the court, your opponent hot on your heels, then with a steady hand and a keen eye shoot for a basket. It's fast, it's furious, it's fun. Defend your zone, tackle your opponent, race against the clock as you run, turn, leap then slam-dunk the ball through the net.

Watch your moves in slow-motion replay and hear the crowd go wild. It's 3D action all the way with brilliant high-resolution graphics and stunningly authentic sound effects in this superb sports simulation from Imagine.

Go for it! Be a Basket Master.

Buggyboy

Use the joystick to select a course and press fire. The race begins. Drive your race-tuned Baja Bug along the racetrack, passing through gates and collecting flags for points. Time gates give you an additional two seconds on the next leg so drive through them if you can. Collecting the flags in the specified order gives you extra points. Avoid hitting the fences, walls, trees etc., as they flip your buggy over and slow you down. You are competing against the clock so don't waste time, push the pedal flat to the floor. Try jumping obstacles by hitting the logs that lie across the track. Show off your driving skills by running over molehills and tree stumps, tipping your car onto two wheels see how long you can keep your buggy in this trick position. Fasten your seat belt for the ride of your life.

Circus Games

Tynesoft welcomes you to "The Greatest Show on Earth" Ringling Bros & Barnum and Bailey combine to bring you "Circus Games". Capture the thrills, spills, atmosphere and excitement of the Big Top. Compete in High Wire, Tiger Training, Trapeze and Trick Horse Riding, nine levels in all with multi-tasks to perform — reward is inclusion in the prestigious "Hall of Fame".

TIGHTROPE

The walker must perform a series of tricks on the high wire, including handstands, 180 degrees spin cartwheels and flips before mounting the silver unicycle to conclude the performance.

TRICK HORSE RIDING

The rider must perform a series of tricks whilst on the horses cantering around the ring.

TRAPEZE

The action takes place high up above the ring without a safety net. The crowd is captivated by their every action. The flyer has to perform crosses and recrosses across the Arena before being joined by another flyer as the catcher. A sequence of tricks, double or triple somersaults, mid-air somersaults and cork-screws have to be carried out under the watchful eye of the Judges, for a good score.

TIGER TRAINING

A large cage is placed in the centre of the Ring — the door opens and in bound three great Bengal tigers. You, as the Trainer, have to get all three big cats to perform a series of tricks, jump through flaming hoop, jump onto a podium and walk through a tube on the obstacle course without being devoured by the magnificent animals.

The trainer holds a chair in his left hand to defend himself and calm the tiger if he is put under threat. In the trainer's right hand is a whip, this is used to move the animals to your selected position.

Codename Mat II

THE MAN:- MAT, defender of the universe and solo pilot of the battle cruiser Centurian, embarks on his most daring adventure yet.

THE PLOT:- The red planet Vesta contains the most precious life-giving substance in the universe: Karillum. For many light years the inhabitants of the planet have peacefully mined and despatched Karillum to the free colonies of the Solar System, but now the evil Myons have returned to destroy Vesta and its Karillum mines. MAT is sent in his sophisticated fighting machine to defend the planet and its satellites from attack and restore law and order in space.

THE ACTION:- In fast and furious fights with the marauding Myon ships, MAT must think out a strategy to outwit his enemy's attempts to penetrate Centurian's defence shields. Using his Battle Computer to scan ahead and Droids to repair his damaged craft, MAT is faced with the most tantalising tactical decisions of his fighting career. So get behind the controls for the greatest space voyage of a lifetime.

Command Performance

A fantastic compilation of ten exciting games!

CHOLO: Using the popular bunker game 'RAT', you have access to the only surface robot under the control of the bunker computer. All other computers and robots are lost to their own misguided and corrupted logic circuits, bent on maintaining the seal on the tetrahedral bunker cap. It is up to you to break this seal.

ARMAGEDDON MAN: Your task, as Supreme Commander, is to try and prevent Armageddon. You will need diplomatic, military and tactical skills, as well as a good deal of common sense, if you are to succeed.

MERCENARY: In Mercenary, you can take the role of a 21st Century soldier of fortune crash-landed on the strife-torn planet Targ.

Your challenge is to escape from the planet, having first discovered the means to do so.

XENO: Xeno has one or two player keyboard or joystick options. Each player controls a manoeuvrable disc in an attempt to push a smaller puck through his opponent's goal.

TRANTOR: The game opens with Trantor standing by the lift. Equipped with a flame-thrower, he has 90 seconds to activate the N.I.K. security terminal.

LEVIATHAN: Leviathan takes you thirty seconds into the future, where pop videos inspire crazy fantasies in the minds of ordinary people. Your objective is to seek out and destroy enemy ships in three exciting different planet zones.

SHACKLED: Your friends have been captured and chained up in cells. Your task, is to rescue and release them from certain death in the complex of the underground dungeons. A highly accurate and addictive simulation of ten-pin bowling, and the best thing yet to a night in the local alley!

Everyone's a Wally

Wally is back, this time with his family in the first ever Multi Role Arcade Adventure. Not only does Wally appear fully animated but also Wilma, Tom, Dick and Harry. The purpose of the game is to find the combination for the safe and then pay the gang's wages. The combination is split and can be found in different locations. Not only must the combinations be identified, but also the right items to collect the combinations must be used. The locations are many and varied and contain zany arcade sequences which must be completed to finish the adventure. Each character has specific abilities and it is up to the player which one will perform a particular task. The game starts with the whole gang in the Town Square by the fountain. You have control of Wally so the rest of the gang go off about their own business. As Wally cannot do everything himself you will have to select one of the other characters (except for Herbert, he is totally uncontrollable) to perform the various tasks. While a character is not under control he or she may be carrying out other tasks which could help or hinder you. CODE: WALLY001

Every Second Counts

When Paul Daniels says "You're right", you collect seconds rather than points. Up to three couples or six individuals can play and the fun starts with "True or False" rounds. As in the TV show a bonus round comes next to gain those valuable seconds. Next, the winner takes part in the Grand Final but all those valuable seconds collected during the game are ticking away. The more seconds you gain, the easier it is because "EVERY SECOND COUNTS". TAPE CODE: EVERY001 DISC CODE: EVERY001

Four Great Games II

Battle of the Planets — Battle of the Planets is a space adventure. Now you can join G Force in their latest adventure to defeat their arch enemy Zoltar.
Tuts Pyramid — Like all great Pharaohs, King Tut wanted to be laid to rest in a magnificent pyramid just as predecessors were. Its your job as Official Pyramid Engineer to build the whole Pyramid with the help of your magic carpet, before the Pharaoh dies.
Future Shock — The GAL-CORPS had been given the job of Human Evolution. However, due to unforeseen circumstances they lose the Evolutionary Scroll. As Gob you have been chosen by the Supreme Being to search Human Memory for the Scroll so the Evolution may continue.
Cop Out — In the era of prohibition, Flappers and Gangsters, Cop-Out portrays the battle between the Police and Mobsters in the roaring 1920's in USA. Can you survive as a cop out on the street, battling against the bootleggers, or will you 'Cop-Out'? TAPE CODE: FOUR002

Fernandez Must Die

RID YOUR FREEDOM-LOVING NATION FROM THE TYRANNY OF AN EVIL DESPOT... The state of El Diablo is in turmoil, the democratic government has been cruelly deposed in a military coup and the evil General Fernandez rules. Fight your way through the army of this mad despot, make your way by jeep and on foot across the country to destroy the military bases and of course your target, FERNANDEZ. Your task is not an easy one and in order to assassinate Fernandez you will encounter armies, parachutists, planes, trains, jeeps, ammunition and secret gold dumps in your quest to reach your target and release El Diablo from his tyranny. Fernandez Must Die is packed with action: a huge map to explore and hundreds of prisoners to free, gold to 'liberate', armouries to raid and destroy. Pit your ingenuity and arcade skills against the size power and madness of Fernandez' military regime. If you succeed you will be hailed as El Diablos liberator; failure means a funeral service. Fernandez Must Die features superb animation, great graphics and fabulous sampled sound (samples on some formats only). The gameplay is astonishingly addictive and, with the two player option available (on most formats), it'll knock the stuffing out of the competition. Free 'Fernandez' badge and 'Fernandez' poster and T-shirt offer. TAPE CODE: FERNAN001 DISC CODE: FERNAN001

 DISC CODE: FLIGHT001 MEMBERS £13.95 NON MEMBERS £17.99

Flight Simulator

To begin the breathtaking flight you must first take off and this must be done at the speed of 60 knots — any slower and the engine will stall.
 After that you can only land at one of two airfields, if you try to land between them you will crash. Landing is a difficult task, first of all you must lower your flaps and wheels. When you have touched down, immediately close the throttle and apply the brakes.
 Changing the skill level changes the response of the aircraft to the controls, effectively changing the aircraft type.
 However, if skill level 15 is selected, pressing P again will disable the instruments panel and you will be in for a pretty hairy flight.

Game Set & Match Vol. 1

10 HIT COMPUTER GAMES
World Series Baseball — Compete head to head or against the computer in this stunning baseball simulation. Prior knowledge of baseball not essential.
Match Point — Take on the best in Match Point, with many authentic tennis game features and racket control such as: forehand and backhand. An exciting tennis simulation to add yet another dimension to this great sport pack.
Jonah Barrington's Squash — "New Generation have produced a computer game so close to the real thing that it is not only great fun to play but will also teach players at all levels to improve their game."
Pool — A great simulation of the classic American ball game with super-smooth action and cue control with power control feature. If you've got your angles right you can play a stunning game right through to the eight ball.
Konami's Ping Pong — Play head to head or against the computer in this, Konami's first and best table tennis simulation. Just like the arcade original the 3D graphics and playing features such as the Back-spin, Forehand Smash, Top-spin, Back-Hand Return and many more help to test your lightning reflexes and skill of touch and timing.
Hyper Sports
 Swimming Triple Jump
 Skeet Shooting Weight Lifting
 Long Horse Archery
Super Soccer — We think super Soccer is the best computer soccer simulation yet. Be Maradona on screen. You can dribble past opponents, slide tackle, make crosses, even attempt diving headers.
Barry McGuigan's World Championship Boxing — You have been invited to participate in the challenge of BOXING. Raw, iron-twisting strength is definitely an asset. But for a shot at the title you'll need more than that... like strategy, finesse, lightning fast reflexes and a mental toughness that most games are afraid to require.
Basketball — It's the lightning-paced sport played only by super athletes. A game of strategy, guts, stamina, and most of all teamwork. It's all here, in GBA Championship Basketball: Two-on-two. Develop the strategies and skills to make you play like a pro!
Daley Thompson's Supertest includes:
 Pistol Shooting Rowing
 Cycling Penalties
 Spring Board Diving Ski Jump
 Giant Slalom Tug O'War

The Games — Winter Edition

IT'S THE NEXT BEST THING TO BEING THERE!
 These seven events, modelled after the official Calgary competition, put you right there in the Canadian

Rockies competing against the fastest and strongest athletics in the world.
GOING FOR THE GOLD TAKES ENDURANCE ...
 The easy part ends after the Calgary opening ceremonies. After that you'll sweat icicles in the cross-country competition. Slice through ice in the oval-track speed skating event. And with burning muscles, you'll make a self-styled figure skating routine look easy.

... AND DARING
 You'll cruise the luge at 95mph with only a fiberglass board and some razor sharp blades between you and a rock-hard chute of ice. To get downhill to the fold you'll taste the Calgary stratosphere as you freefall down a 90 metre ski jump, ride the wind and touch down on white concrete. Do it better and faster than anyone else and you've got the gold!

Heroes of the Lance

ADVANCED DUNGEONS AND DRAGONS
Heroes of the Lance is the first computer game that re-creates the epic battle between good and evil on the world of Krynn. (It is based on the first DRAGONLANCE module, Dragons of Despair). Control eight companions in turn, in real-time action and full animation. Guide these brave adventurers each with different specialised skills, deep into the ruins of the temple Xak Isaroth to retrieve the precious Disks of Misbakal. As you descend into the Abyss, the companions must defeat hordes of monstrous Draconians in hand to hand combat, deal with powerful magic and survive the vicious attacks from Gully Dwarves, giant spiders, the undead and countless other terrors. But your final obstacle makes these monstrosities innocuous by comparison. The platinum discs you seek are guarded by Khusanth, an ancient black dragon and there is one way to vanquish this mighty beast. Find the key to destroy Khisanth and the companions will take their first steps to earn the noble title, Heroes and the Lance.

History in the Making

THE FIRST THREE YEARS
A classic anthology of 15 Games charting the success of US Gold from July 1984 to July 1987.
BEACH HEAD ... the leader of the pack. US Gold's first quarter of a million seller.
BRUCE LEE ... the first famous face to join US Gold.
SPY HUNTER ... Bally Midway's armoured car classic that became a home computer cult.
RAID ... Impressive yet controversial, Raid hit the headlines in the national press.
GOONIES ... Spielberg film translated into the first simultaneous two player interactive arcade game.
SUPERCYCLE ... the Epyx spectacular on two wheels. A fast and furious arcade game.
WORLD GAMES ... around the world with 8 incredible and unusual events by Epyx.
EXPRESS RAIDER ... rootin', tootin', arcade action — the Easter hit of its year.
INFILTRATOR ... arcade strategy, simulation — all ingredients that culminated into a European No. 1.
BEACH HEAD II ... tough action sequel, another monster chortbuster from Access.
GAUNTLET ... the biggest selling computer game 1986/87, over 300,000 sold, the 1st greatest arcade conversion.
ROAD RUNNER ... the summer No. 1 of that year — cartoon, coin-up capers.
IMPOSSIBLE MISSION ... the benchmark test regarded by many as one of the greatest computer games of all time.
KUNG FU MASTER ... a Gallup No. 1 from Data East — often imitated, never emulated.
LEADERBOARD ... "This is the sports simulation of the year — if not the decade".

Hopping Mad

The pressure is on to be one jump ahead!
Your opponent played first. Globe-hopping through the world and into space he's skillfully avoided everything that could cost him a life. Since he's gobbled and popped almost all the apples and balloons on the way, he's leapt his way to a brilliant score. He's pleased, you're not!
Now it's your go, in the forest you escape the jaws of death after evading a set of ball eating planets, duck the bees and birds, over the hedgehog, over the rising ball. Perfect.
But the seaside is no picnic! Straight away you land on a lizard. Pop! One life lost, and you're down on score. Bounding on, you approach the cacti, and approaching you is the balloon, closely followed by rooks. You could glide safely over the cacti or jump for the balloon — risking death at the claws of the birds, three balls and three lives left! Lose them and there's no bouncing back, but you need those points.

Live and Let Die

James Bond, 007, the world's top secret agent is back.
Dr. Kananga the infamous and ruthless Prime Minister of the Caribbean Island of San Monique, an island whose people are controlled by the fearful power of voodoo, is harvesting huge fields of poppies concealed under camouflaged netting on this paradise island. He plans to control the US drug market by flooding America with tons of free heroin which would create a living hell for millions.
Dr. Kananga or 'Mr. Big' as he's known in the underworld, is a shrewd operator who conceals his dealings from prying eyes. His headquarters, which are well hidden beneath a cemetery in San Monique, ships all of the unrefined heroin to processing factories in remote and inaccessible locations.
As James Bond you must carry out the order of "M", travel by the only accessible means to destroy these death dealing factories. All of the factories need a large supply of water to manufacture this dangerous and evil substance.

Neil Android

In the year 2199, the Spaceship 'Epic' was caught in a plasma storm and forced off course through a space warp into unknown space. Due to damage sustained during the storm, the 'Epic' has been forced down to an apparently uninhabited planet for urgent repairs. Whilst on planet, the ship, unknown by the crew, became infected with an Alien Life Form (ALF).

Several crew members were killed on contact with the ALF. The captain of the Epic gave the order to abandon ship and the crew teleported to a nearby planetoid to await rescue. The last crew member to leave, activated the ship's on-board cleaning system whose Servo-droids would hunt and destroy any ALFs on the ship. On hitting an ALF, they self destruct, leaving their energy rolls behind.

Overlander

The year is 2025. The once green and beautiful planet now resembles Death Valley, USA. The soil is dry and scorched, there is little vegetation to be seen anywhere. The earth has been in this state ever since the ozone layer was destroyed in the latter part of the 20th century. Scientists saw the holes developing in the ozone layer and sent warnings but they were never taken seriously, until it was too late. The holes were there and they were growing. The damage was minimal at first but eventually grew into an unstoppable apocalypse. Radiation from the sun caused terrible damage to the environment and forced people to retreat underground, where vast subterranean cities evolved in isolation.

Today, the only link between these underground cities is the old network of surface freeways, now ruled by anarchic gangs of outcasts, known as surface dwellers. The only people daring to make trips these days are the Overlanders. They keep themselves to themselves, their only passion being their customised cars. They make journeys for cash, running cargo across the surface dwellers.

Popeye

Life's not all a bowl of spinach for Popeye as he hunts for hearts to win the love of Olive Oyl. His rival, the macho Bluto, is not amused. He thumps around making a pulp of Popeye.

Olive Oyl demands a never ending supply of love. Keep her sweet by collecting 25 scattered hearts and handing them over. Take care to check Olive's loveometer. When her love level starts to fade you must restore it by delivering some of the hearts you have collected.

The task is not easy. Hearts can be anywhere — up the lighthouse, on board the ship, under the ocean, locked in the house, on the roof, inside the fruit machine.

It's not just the right door keys that Popeye needs to collect on his way. The sailor man is not the only one seeking Olive Oyl's love. Bluto is his rival pacing up and down outside Olive's house. Avoiding Bluto and all other moving objects — giant birds, flying witches, snoring dragons and gnashing sharks — as they have a habit of knocking Popeye for six. He'll survive if you have a tin of spinach in store for him, of course, but you can only carry eight things around with you — including the heart and keys as well as the life-giving green stuff.

Psycho Pigs

Finish your Smokey Bacon crisps and get your teeth into this meaty pork pie of a game from Jaleco.

When the referee's whistle blows, it's trotters to the ground in the inter-galactic pigsty as you take on a group of pigs wishing to avoid this Sunday's dinner table. Put your back into it, no time for 'irrashearnal' thinking, as you gammon to the field to keep fit and lean.

Streaky movements will keep you off the scratching listings and save your bacon.

This game is not tripe but brilliantly imaginative and addictive.

Rally Driver

To complete successfully in a car rally requires more than just fast driving. You must plan your route carefully taking many things into consideration, the weather, longest and shortest routes, which are fast roads, which are slow roads. Drive quickly, but carefully. You must always be on the look out in case spectators or farm animals have strayed onto the road. The rally takes place in 3 stages over 3 gruelling days or nights. To win a cup you have to come in the top three after the third and final stage. The competition is tough. Only the top seven competitors can proceed from Stage 1 to 2, and just the top five go through to Stage 3 from Stage 2. Each stage contains a number of Time Controls (these are marked on the map which accompanies this program). You must drive through each time control in order to complete a stage. There are a number of different routes you could take to go through each Time Control. It is up to you to use your navigation skills to choose the best course.

The Rocky Horror Show

Don't dream it, play it!

You must take the part of either Brad Majors, or his fiancée, Janet Weiss (you can choose) and rescue your partner from a fate worse than death: Turned to stone by Dr. Frank N. Furter. To save them you must reassemble the De Medusa Machine, and activate it. The parts of the Machine have been scattered around the castle and your task is to find the parts and place them on the floor show stage next to your petrified partner. Frankie knows that you will attempt to rescue your partner and it amuses him to watch your feeble efforts. Time is of the essence as the entire castle is a disguised spaceship and the countdown has started. Brad, Janet and Frankie are not alone in the castle. Roaming the castle are:

Riff-Raff A manic depressive hunchback butler
Magenta A domestic, and Riff's sister
Columbia A groupie
Rocky Horror A creation
Edie A failed experiment suspended in a deep freeze who tends to thaw out.

Solar Warrior

Many years ago at the start of the 25th Century, an elite fighting force was set up to protect Earth from invading life forms.

Earth was rich with new elements used in time travel and the only natural planet where they were to be found.

These elements were so valuable it was decided to transport them to storage planets protected by orbiting space stations and Solar Warriors. The location of these planets was kept secret for hundreds of years, and the Warrior force was not needed.

Now, in the year 2650, the locations of the planets have been divulged to Earth's enemies. You are the only Solar Warrior left. You and only you can protect these planets. You will have to fight the orbiting space station and transfer to the landing craft. Once on the planet you must destroy the enemy who is trying to steal the supplies.

Star Wars

At last! The most famous coin-op Arcade Game and one of the most successful films of our era come together in this publication. Faithful to the original, the home computer version of STAR WARS should win first place in any game player's collection, and will always be one you go back to time after time.
The first scene is the Space Attack, with waves of hostile space-craft attacking your lonely but powerful ship. You battle to the Deathstar, and once there fly close to the ground in a daring attempt to blast the space towers, and flying stars, steering your way through the barrage.
Finally, you emerge in the trench, jumping and ducking the stretch barriers and shooting the missile emplacements fastened to each side of the death defying walls. There are many levels to the game with stirring music and speech synthesis — fast and furious action is guaranteed throughout.

Super Robin Hood

WELCOME TO LEGENDARY TIMES OF ROBIN HOOD
The sheriff of Nottingham has kidnapped Maid Marian and locked her in the East Tower. He will only release her when the outlaw Robin Hood surrenders to him. Gallantly, Robin sets out through Sherwood forest to Nottingham Castle to free his love, oblivious to the inevitable dangers that lie before him. Once he has crossed the moat and entered the castle the game begins, he must fight his way past the guards and mediaeval animals protecting the castle. Only by fast reflexes and accurate manoeuvring do you stand a chance of rescuing Maid Marian.

The Magnificent Seven

Every game a smash hit.
Wizball — A superlative piece of software. Slick in virtually every aspect, wholly original and immensely playable.
Short Circuit — The two games are excellent and have delightful graphics. The variety is the real clincher with something for everyone.
Arkanoid — This is a magnificent conversion, faithfully capturing the feel, atmosphere, look and sound of the original.
Head over Heels — Is one of the most addictive, playable, cuddly cute and fun games ever. Miss it at your peril.
The Great Escape — "The best arcade adventure" 1986 Newsfield readers award.
Unquestionably the best arcade adventure so far this year — don't miss it.
Cobra — Go out and buy it now, no self respecting games player should be without a copy. The graphics are superb and the scrolling is very effective.
Frankie goes to Hollywood — This is a highly innovative arcade/adventure that you must not be without.
Free — Yie Ar Kung Fu — Newsfield "Best Game" Award
Easily the best of the martial arts programs because of the variety of characters and excellent arcade style playability.

Tobruk

July 1942
After months of fierce fighting in the North African desert, the British and Commonwealth forces had taken and defended Tobruk — a key port to Mediterranean strategy and vital to any supply in the desert war. With the Axis forces pushed back to Gazala the allies began laying a vast minefield of over 500,000

mines stretching from Gazala to Bir Hacheim. Field Marshall Rommel's offensive began in May 1942. By July he had broken through the "Gazala line", retaken Tobruk and pushed the British back into Egypt. Are you that good? Tobruk — the game — is a simulation of that offensive. In the one player version you take the role of Rommel. You can also play the two player game and Amstrad owners can "network" two Amstrads for a superb hidden movement two player game (extra cable required). In addition to moving your forces via the main map, there is an engineer and air screen allowing you to allocate forces to mine laying/lifting, tank recovery/sabotage, interdiction, air strikes and superiority. We have also included an OPTIONAL Tank simulator including driving, main gun and machine gun operation. Trivial Pursuit

Here at last — the world's most fashionable Board Game officially comes alive on your computer. You have in your hands the result of many months co-operation between the originators of Trivial Pursuit and a team of young, highly qualified programmers based at Oxford University. What makes the Computer version of Trivial Pursuit so special? * Sound and music questions — can you name THAT tune? — played backwards! * Graphical questions to puzzle and ponder over. * Text questions (many linked to graphics and music) to tease and amuse you. * The Dice is thrown and all possible moves flash automatically. * Play Trivial Pursuit on your own or with your friends!

What it retains is the pure good fun of pursuing trivia that the whole family (Mum and Dad included!) enjoy enormously.

- * What is Desperate Dan's favourite food?
- * Do frozen peas float?
- * What is Triskaidekaphobia?
- * Which members of the Royal family can vote?
- * How many golf balls are there on the moon?

Do you know the answers to these questions?

If not — who cares — it's all part of Trivial Pursuit!

Theatre Europe

14th October 1987
"Massive U.S. intervention in Syria... Bonn declares desire for reunification of two Germans... Arms reduction talks in Geneva break down... NATO build up in West Germany... Russian tanks cross West German border... THEATRE EUROPE.
Set in the future the player can choose to take the role of either the supreme commander of NATO or of the Warsaw Pact, and has at his disposal ground, air, nuclear and chemical weaponry and troops. The battlefield is from Portugal in the west to the Crimea in the East, from Finland in the north to Yugoslavia in the south. THEATRE EUROPE simulates the first 30 days of the conflict we hope will never happen, and in addition to being able to command either side, the player can select the style of his computer opponent. The first game is non nuclear, in the second the computer plays a "rational" game following the accepted strategies of both NATO and the Warsaw Pact. In level 3 the computer plays a highly unpredictable game where anything can happen!

Tenpin Challenge

A game of Ten pin Bowling consists of 10 frames. A player bowls twice in each frame unless all ten pins are knocked down with the first ball. This is called a STRIKE and is shown on the score card as an X. If it takes both balls of the frame to knock down all the pins, this is called a SPARE and is shown on the score card as a /.

A STRIKE scores ten points plus the total number of pins knocked down with the next two balls. A SPARE scores ten points plus the number of pins knocked down with the first ball of the next frame. If a player fails to make a strike or a spare, only the pins knocked down are counted and nothing is carried over to the next frame.

The MAXIMUM score for each FRAME is 30 (10 points for a strike + 10 points each for the next 2 balls). The MAXIMUM GAME score is 300. This is made up of ten strikes plus one strike with each of the two extra balls that a player receives for scoring a strike in the 10th frame. If this all sounds a little complicated, don't worry. ALL SCORING IS CARRIED OUT AUTOMATICALLY leaving you to concentrate on your bowling. GOOD LUCK!

DR Draw

TRANSFER IDEAS INTO ART
DR Draw lets you create high-quality visual aids for business presentations and reports. Using an interactive picture editor, you can draw a wide variety of charts, diagrams and text slides — quickly and easily.
EASY TO USE — DR Draw's easy-to-follow menus take you quickly through the creation of picture elements. You can select pre-programmed shapes; circles, bars, arcs, rectangles, polygons, and lines or create your own pictures by modifying these shapes, using either a mouse or the keyboard.
DESIGN VERSATILITY — Each picture element can be revised with a few strokes of a key. Fill a shape with colour or patterns. Enlarge or reduce it. Move it to a new location or copy it. You can also change type fonts, size, colour and location with simple keystrokes.
SPECIAL ZOOM AND PAN FEATURES — A special feature of DR Draw lets you zoom in for detailed work then lets you zoom back out for a view of the entire picture. If you're working on an extra-large drawing, you can pan the screen back and forth over each section.
CREATE IMAGES ON OVERHEAD TRANSPARENCIES OR PAPER — When you're finished you can store your drawing on a disk, or you can output to a plotter or printer. Print on paper or for audio-visual presentations, on overhead transparencies.
BENEFITS: Produce professional-quality charts and diagrams in minutes. Zoom in for detailed work. Output drawings or diagrams to printer.

Masterfile III

MASTERFILE III is the successor to the very popular MASTERFILE 464 and MASTERFILE II programs. It is a disc filing system of immense speed and versatility to suit all users of Amstrad CPC 128k machines. Only one disc drive unit is required. A comprehensive illustrated manual is included.

- FEATURES:
- ★ Fully machine-coded for speed
 - ★ Fully MENU-driven
 - ★ Variable-length fields and records
 - ★ Field-to-field calculations
 - ★ Multiple User-defined screen formats
 - ★ Clever data presentation options
 - ★ Communicate data to other programs, e.g. PROTEXT/PROMERGE/TASWORD
 - ★ Sort ascending/descending
 - ★ Fast screen/disc handling
 - ★ File Save/Load/Merge/Split/Erase
 - ★ USER BASIC for customised data processing
 - ★ Printed output up to 160 columns
 - ★ Compatible with earlier CPC MASTERFILE files

APPLICATIONS INCLUDE: Address lists, Label printing, Stock control, Music/book indexing, Insurance inventory, Shares portfolio, Bibliography, Philately, Club memberships, Subscription list, Price lists. Just about any card-index application can be brought into the computer age with MASTERFILE III.

DISC CODE: MASTER001

Mastercalc 128

- FEATURES:
- ★ Large capacity, room for 7,000 cells, e.g. 100 rows x 70 columns
 - ★ Uses the full 128k RAM of the CPC6128 or extended 464/664
 - ★ All values stored as signed 8-byte floating point.
 - ★ Direct totals and sub-totals by row or by column.
 - ★ Up to 99 formulae, each allowing complex arithmetic expressions.
 - ★ Formulae can have conditional terms.
 - ★ Recalculate by row or by column.
 - ★ User BASIC option for data manipulation.
 - ★ Text can be keyed directly anywhere on a plan.
 - ★ Text in a cell can be "nudged" left or right.
 - ★ Plan can be "folded" to keep distant columns in simultaneous view.
 - ★ Toggle between 40-column and 80-column mode.
 - ★ Screen can be split horizontally into two independent windows.
 - ★ Repeat-last-value facility.
 - ★ Text print with many printer options.
 - ★ Hi-res screen snapshot for Epson-compatible printers.
 - ★ GRAPHIC HISTOGRAM of 1, 2 or 3 rows.
 - ★ Colour Trim.
 - ★ Load/Save/Drive select/CAT options.
 - ★ User BASIC option for data manipulation.
 - ★ FULLY MACHINE CODED, WITH FAST MEMORY BANK-SWITCHING.
 - ★ Detailed manual with illustrated tutorial.

APPLICATIONS INCLUDE: Bank Statement, Sales Analysis, Household Budget, Profit & Loss Trend Analysis, Project Control and Costing, Financial Forecast.

Maxam 1.5 (ROM)

At last, due to massive public demand we have produced an enhanced Maxam ROM especially for Protex Users. The editor has been taken out, and you can now assemble your source code simply by typing ASM while it is in Protex memory. Debugging is now easier with comprehensive diagnostics and the ability to change register contents and resume from breakpoints. Other new features include load/save machine code from Protex/Maxam and extra assembler directives. All the other Maxam features are included.

Breakpoint commands: set or clear brkpt, set temp brkpt, display brkpts, clear all brkpts, pause at brkpt, disable enable brkpts.

Debugging commands: jump to code, resume execution, set any register, display registers.

Other new commands: disassemble/list memory to screen or file, load or save memory set HIMEM from Protex

Assembling commands: ASM assemble Protex text

TASM test assemble on file for quick syntax check

New assembler directives

Maxam II

- Complete CP/M machine code development system.
- ★ Macro assembler
 - ★ nested conditional assembly
 - ★ file inclusion
 - ★ Textual substitution of macro parameters
 - ★ repeat loops
 - ★ Full expression evaluation
 - ★ Error listing to screen/file/printer
 - ★ 8060 mode
 - ★ Linking facility
 - ★ Create object files for use with C
- Window based monitor, with:
- ★ Line assembler
 - ★ disassembler
 - ★ memory editor
 - ★ find string
 - ★ relocate
 - ★ Move memory
 - ★ compare memory
 - ★ fill memory
 - ★ bank switching
 - ★ Symbolic debugger
 - ★ single stepping
 - ★ set memory limits for stopping
 - ★ Stack checking
 - ★ conditional breakpoints
 - ★ trace mode
 - ★ edit registers
 - ★ editor is program mode of Protex (as for C, above)
- "Maxam II — now the best gets even better" CWTA CPC
- "A really excellent piece of software which, given the speed with which debugging can be done, will pay its way

very quickly" ACU

"The thing that struck me... was the amount of thought and effort that has gone into this product" CWTA CPC

"Maxam II is stunning... the most complete and competent programming package around. Simple, speedy and sophisticated" AMSTRAD ACTION

Stock Market

Stockmarket is a program designed to help you plan your investments and keep a close and careful watch on their progress. It enables you to record full details of your purchase and sales of stocks: shares: unit trusts: and other securities: dividends can be recorded as they are received. If required cash balance in saving accounts can also be monitored as stocks are bought and sold. It also lets you record and plot prices of shares, unit trusts, exchange indexes etc. Stockmarket does not have to be used with your real investments. We all see shares recommended in a newspaper or magazine that we think we will do. Six months later if the price has gone up we wish that we had trusted our judgement. If the price has fallen we quietly forget it. With Stockmarket you can record details of as many share folios as you want. These can include hypothetical folios of hot stacks: recovery shares: penny shares or whatever you choose. You can practice buying and selling shares and see how well you do. The program is easy to use and comes complete with a comprehensive manual and demonstration files including real price information going back several years for several shares.

Incl. FT30 Index and BT... you can plot graphs away...

Tascopy 464 The Screen Copier

A suite of fast machine code screen copy software for the Amstrad CPC 464, 664, 6128. Tascopy 464 adds two special commands to the Amstrad BASIC.

The ICOPY command print a high quality resolution screen copy on your dot matrix printer. The printed screen copy is approximately A4 in size although there is some variation between makes of printer and different screen

modes. Screen colours are printed with differing dot densities to give a shaded monochrome representation of the screen colouring.

The IPOSTER command produces a "poster size" screen copy printed onto two or four sheets of paper which can then be cut and joined to make the poster. These poster size copies are shaded in the same way as the ICOPY screen copies.

Tas-Diary

Tas-Diary — the electronic diary for the Amstrad CPC 6128, 664 and 464 with disc drive.

Tas-Diary is a fast and efficient electronic day-to-day diary. Tas-Diary features a separate screen display ("page" of the diary) for every day of the year. Each page includes the current date and time, a calendar for the current month, and a large area for making your diary notes. Each diary opened includes several note pages and a memo pad.

With your Tas-Diary you can create a diary not just for this year but for every year into the distant future! You can even use Tas-Diary for past years if you want to keep "historical" data. All entries made with Tas-Diary are automatically saved to disc upon closing the diary.

Tas-Diary includes an automatic sort facility. This means, for example, that the list of appointments could have been entered in any order — Tas-Diary will sort them into logical order. There is also a find facility which searches the current month in memory for each occurrence of a particular name or event. With these and other features Tas-Diary is an invaluable aid to keeping records, reminders, and any other data which is related to that most valuable commodity of ours — time!

Tas-Spell

Tas-Spell — An additional facility for the Amstrad word processor Tasword 464-D and Tasword 6128. Spelling mistakes and typing errors spoil any document whether it's a private letter or your latest novel. If your spelling is anything less than perfect or you have to proof read long documents the Tas-Spell is an essential requirement for your Tasword 464-D or Tasword 6128.

Tas-Spell checks the spelling of Tasword 464-D and Tasword 6128 text files. The program compares each word in the Tasword file with the words in the Tas-Spell dictionary. The comprehensive dictionary contains well over 20,000 words and grows as you use it. If a word is not recognised then the relevant part of your text is displayed with the suspect word highlighted. Options then enable the user to correct the word, ignore it (it might be a name), or even add it to the Tas-Spell dictionary. If you produce documents in connection with an unusual or technical subject Tas-Spell will soon learn all the words you use. The space available on the Tas-Spell disc will allow approximately 10,000 words to be added to the dictionary. Tas-Spell can also be made to produce a print out of every unrecognised word found, along with its line and column number in the text file. With Tas-Spell you are free to be creative in the confident knowledge that your spelling won't let you down.

Tasword 464

The Word Processor

Tasword 464 — the professional standard word processor for the Amstrad CPC464

The Amstrad 464 has a typewriter quality keyboard and an eighty character display mode on the purpose built monitor. These features make it an ideal machine for word processing. Tasword 464 makes great use of the hardware and software features of the CPC 464.

Tasword 464 includes the following features:

HELP COMMANDS: In addition to on-screen help, commands include show help page — help on — help off — scroll up/down — get help — put help.

CURSORS MOVEMENT: Go to start of text — end of text — start of line — scroll down/up — word right — word left.

DELETE: Delete character, word, line or entire block.

INSERT: Insert character/line — insert mode on/off.

REPLACE OR FIND TEXT: Find a word — find AND replace a word with some other word or group of words.

BLOCK COMMANDS: Mark start/end of block — delete, copy, move block.

TAB COMMANDS: Move cursor to TAB stop — set a TAB stop — clear a TAB stop — clear all TAB stops — reset TAB stops to default.

PRINTER COMMANDS: Force a form feed (start new page) — define a header (a line printed at the top of every page) — define a footer — on screen page break display on/off (shows start and end of each page on printing).

CHARACTER COMMANDS: 40 user definable printer control characters to instruct your printer to print in enlarged, underline, italics, etc. — a second character set containing 92 foreign and special characters — convert capitals to lower case and lower case to capitals.

PRINT OPTIONS: Start/finish at specified lines — specify line spacing — specify number of copies — continuous or single sheet stationery — specify form feed at page breaks — print headers and/or footers — print page numbers at top or bottom of page and at middle or sides.

With these and many other features your 464 becomes a professional standard word processor with Tasword 464. Supplied complete with a comprehensive manual, and the TASWORD 464 TUTOR, a text file recorded on the cassette to help you explore and discover the powerful facilities offered by Tasword 464.

Vidi — Video Digitiser

VIDI is a video frame grabber/digitiser specifically designed for use with the Amstrad CPC range of computers.
With this package it is possible to capture a picture from any standard video source, camera, video recorder, even other computers. You may then save this picture on disc or tape, produce dynamic effects, manipulate the picture or re-display it on your CPC computer screen.
Pictures can be grabbed in MODE 2 (hi-resolution, 2 shades), MODE 1, (med-resolution, 4 shades) or a special 16 shade MODE 0 synthesised picture.
VIDI contains its own CRT controller and 16k of video RAM enabling it to capture a moving picture at over 6 frames per second.
A ribbon cable with dual expansion connectors connects VIDI to the computer. A suitable video lead is also supplied, fitted with RCA (phono) and BNC (video) connectors.
Software is provided in two forms, an interactive control program and BASIC extensions (RSX's) for simple control of the sophisticated VIDI hardware.

Desk Top Publishing on Shoestring (Book)

Everyone has heard of Desktop Publishing, but does it really require equipment costing £7,000 to get the results you need? There are thousands of people who need to produce small-scale newsletters, leaflets, catalogues, price lists, etc., but cannot afford the cost of a full DTP price system. Neither is it necessary any more:

WITH THIS BOOK YOU CAN

- ★ Learn how to prepare and lay out text
- ★ Break text with columns
- ★ Make your line justified, with equal left and right margins
- ★ Use headlines
- ★ Understand point sizes and styles
- ★ Use different text fonts
- ★ Make use of graphics
- ★ Use boxes and rules
- ★ Insert illustrations into text
- ★ Learn the principles of page composition

Clip-On Bolle VDU Specs

THE PROBLEM

VDT users all over the world complain about eye strain, excessive glare and general visual fatigue while operating a VDT. This condition can persist even hours after VDT operation.

THE SOLUTION

Comput-Irex is a patented, virtually shatterproof, extremely lightweight polycarbonate lens developed from space age technology.

Comput-Irex significantly reduces glare reflected from VDT screen and excessive office lighting. It also diminishes the perception of screen flickering.

Comput-Irex selectively filters blue-violet light which is the most difficult colour for the eyes to bring into focus and is believed to be a major cause of operator eye discomfort. Comput-Irex also assists in the reduction of subjective sense of screen flicker through luminance reduction.

Comput-Irex lenses combine with virtually unbreakable and lightweight nylon fashion frames for state-of-the-art fashion protective eyewear.

Comput-Irex filters out the residual radiation that can be emitted from a VDT. 100% of the UV and over 90% of the (R) while allowing maximum visible light to pass through to provide the operator with enhanced vision.

Linnet Modem

Linnet is a truly remarkable modem, specially designed to meet the needs of both the home, the education, and the business user alike, at affordable cost. Linnet will auto dial or auto answer, it is Hayes compatible and uses an extended "AT" set. It will monitor the progress of the call both audibly via the built in speaker, indicating to the user that a connection is being made and on the screen with simple messages such as line busy etc.

Linnet features a battery back up and has a 32 number store facility, it comes with "AT" commands and "S" registers pre-set but can be reconfigured to suit the needs of the user, and retained in the memory.

Three built-in help menus make Linnet simple to use and its range of features make it one of the most advanced modems available.

Multiface Two +

Tape-to-disc at the touch of a button. Ridiculous, you may say, but it works every time Multiface can stop any program in its tracks and save the program from memory to either tape or disk. It's completely foolproof. Similar products have had problems with screen size, colour and even sound. Multiface can handle all these without a second thought.

That alone would have satisfied many people, but Romantic Robot has gone one step further, incorporating a memory editor. No program is safe with this: everything is out in the open, including the Z80 registers, CRTC data and any part of the memory. Don't be fooled into thinking this will result in mass piracy, however. The Multiface unit itself

CPC... CPC... CPC... CPC... CPC... CPC... CPC... CPC...

TO ORDER — TEL: 091-510 8787... TO ORDER — TEL: 091-510 8787... TO ORDER — TEL: 091-510 8787...

must be plugged into your Amstrad to allow reloading of a program it saved. Multiface II must be the cleverest hardware device at present — a necessity for disc owners who thought they were stuck with loading from tape every time.

Plonker Box

The simple cost effective disk organiser for today's computer users.

Today's computer programs have become so large that they will not now fit onto one disk. Typically, any one program (wordprocessor, spreadsheet, database etc.) will spread onto two, three, or even four disks, prompting the user to change disks regularly.

Your desk is going to be covered with disks, and they will be exposed to the many hazards that make disks unusable, such as finger prints, scratches, dust and coffee. Having disks scattered over a desk is a dangerous practice.

The Plonker box is designed to fit onto the computer system, and neatly stack current disks out of harm's way, ready for use.

Holds all standard disk sizes:

3", 3½", 5.25", and 8"

Keeps the desk tidy during frequent disk changes. Any one program can spread onto two, three, or four disks.

Protects valuable programs and data from normal desk-top hazards, ie: scratches, dust, finger prints, coffee cups, heavy files, etc.

Anti Glare Screen

STOP GLARE!!

Glare causes fatigue, headaches and eyestrain and yet it can be easily stopped.

Our ALFA-FILTER is a high quality mesh anti-glare screen with a frame. Glare and reflections are drastically reduced and also character definition and contrast is improved. Mesh is superior over glass, perspex and acrylic products. Mesh does not scratch and also does not provide any reflections itself which the others all do. Our ALFA-FILTER neatly attaches to your screen with four out-of-sight velco strips. The frame has a unique matching frame designed specifically for your PCW monitor. A perfect match, in colour, size and shape.

The ALFA-FILTER costs less than other inferior filters and such a small price to pay to look after your eyes.

Thingi

THE WORLD FAMOUS "THINGI COPYHOLDER"

Hailed by the Press as the greatest advance since the paperclip—

"The V.D.U. Operator's Best Friend" Popular Computing Weekly

"THINGI of Beauty says Telecom, Marconi, Champion, Midland Bank, Cadbury Typhoo"

"One of the Best Office products of the year" Daily Express

"Handy place for your copy whilst typing in" Personal Computer World

"Wirral Business Idea of the Year"

"Peripheral of the year"

Probably the most famous, least expensive copyholder in the world. If you haven't got one you may be missing out???

CLUB RULES AND CONDITIONS

1. Membership is only available to residents of the United Kingdom.
2. The membership is not transferable, and all despatches of magazines, products, mailings etc. will be sent to the registered name and address.
3. There can only be one name and address per membership. When a credit card is used for payment, the name and address must be accepted by the credit card company as the name and address of the quoted credit card. Written notification is required to amend any details.
4. Orders should take approximately 7 days to process, (maximum 28 days). The membership card and first magazine will follow.
5. Your User Club Number appears on the invoices as Customer Number, it will also be printed on your membership card. Please quote this number with all communications and orders, to obtain benefits and discounts.
6. The company retains the right to refuse, or terminate, any membership without having to disclose its reasons.
7. The membership expires at the date shown on the card, and beyond this date all benefits cease immediately. A Renewal of Subscription form will be supplied to ensure a constant and uninterrupted membership.
8. Amsoft Mail Order reserve the right to change prices and discounts without notice.
9. All Amsoft and Amstrad products are subject to copyright and members must undertake not to resell, change, copy or reproduce any literature or software.
10. Full Terms of Business can be obtained on request, and are printed on the reverse side of all order forms.

*Prices are correct at time of going to press.
All prices include V.A.T.*

AMSTRAD
PROFESSIONAL
USER
CLUB

The Amstrad User Group incorporates two membership clubs — the 'Leisure' Club for CPC users, and the Professional Club for PC and PCW machine users. We have grown at such a rate that the company now occupies over 5,500 square feet of office space with over sixty employees, and we're still growing!

The Groups activities were complemented in June with the opening of our first retail outlet here in Sunderland. In the luxurious showroom of the Advanced Systems Centre we offer customers demonstrations of the computer systems and software of their choice. Expert technical advice together with comprehensive after-sales support ensure we offer a total business solution. Visit us at the PRE Complex, Pallion Industrial Estate, Sunderland, SR4 6SN. Tel: 091 510 8787. Fax: 091 510 0155.
