TRACKBALL for Texas Instruments Model

NEW!

The arcade trackball comes to the home.

- For the first time, the magic of 360 degree movement
- For the first time, control the speed of on-screen objects
- Makes games lots more fun — makes you a better player
- Full one-year limited warranty

WICO COMMAND CONTROL™

The Authentic Arcade Trackball:

Spin our phenolic ball 3 degrees to the right — and you'll instantly see a proportional

movement on the screen. Spin our phenolic ball 2 revolutions per second — and you'll get that exact same speed on the screen. Only WICO gives you high resolution positioning with the ultimate in speed control. That's why only WICO trackballs can give you higher scores on games like Demon Attack™, Missile Command™, Centipede™, Space Invaders™ and many more.

We created the WICO trackball to make the good player even better. To give you a new kind of excitement, the arcade excitement at home.

every little movement has a meaning all its own.

Only WICO's special computer technology gives the home player the arcade feel. It

has its own custom microprocessor built in. So it can talk to your system in a language all its own. It responds as fast as your hand reacts — and as accurately. You'll notice a difference the first time you play.

The WICO Command Control Trackball works with Atari™, Commodore VIC-20™ and 8 other popular video game and home computer systems.

And it has a full one year limited warranty. It's made and backed by WICO — the same company that makes controls for over 500 commercial video games. Ask your retailer to demonstrate it today.
