## superstick<sup>®</sup>

Now you can play Arcade games with an Arcade style Controller. The Ultimate Superstick<sup>®</sup> features 8 directional micro switch control and a independent Dial-A-Speed<sup>™</sup> auto-fire allowing as many as 30 shots per second! For those difficult games.

The Ultimate<sup>®</sup> also comes with two sets of jump buttons, each with its own operating L.E.D., making it versatile for left and right hand plays. The 10 foot cord allows the gamer to play from a greater distance, a necessity with larger TV screens.

The Ultimate<sup>®</sup> is large enough to rest in your lap, on the floor, or the 5 suction cups allow it to firmly mount on any smooth surface. Incorporating all of these features into one joystick and making it an Arcade style will surely give you a truly Ultimate<sup>®</sup> superstick. For a joystick that lives up to its name, the Ultimate<sup>®</sup> will not disappoint you!
