

THE  
POWER  
SYSTEM

For ATARI 2600™  
and other systems (see back panel)

# THE JOYBOARD™

POWER BODY CONTROL

• Amazing New Technology! • Your whole body plays! • You are "in" the game!

Also included!  
**Mogul Maniac™ Ski Game**  
Power Play Game Cartridge

#3120

Use the Joyboard™ with your Atari 2600™ Sears Video Arcade™ ColecoVision™ Expansion Module #1, or Coleco Gemini™.

# THE JOYBOARD™

## POWER BODY CONTROL

Separate Joystick port. For complete interaction with Atari 2600™ compatible games. (Joystick not included)

10' long cord! Plugs in just like a Joystick.

Holds up to 250 lbs!

Reinforced strain relief.

Advanced switching technology for faster reaction, longer life.

Heavy duty. For the most rugged play.

Eight-direction capability.

Special base for use on virtually all surfaces.

Step onto the Joyboard and enter the game. Your entire body's at the controls. What you do is what you see. You lean, you tilt. You advance, retreat, attack, escape. You ski down mountains. You surf dangerous waves. You narrowly escape enemy bombers. Or you, perish the thought, collide with oncoming meteor attacks and explode! You fly, glide, dive, zoom and careen through the universe of video games. Why sit when you can play? Get on the Joyboard. And go on!

### Mogul Maniac™

Step on your Joyboard and you're on your skis. There, on top of a steep and treacherous mountain.

Ahead you see the tips of your skis as they take the challenge of a twisting, winding, perilous slalom course.

The buzzer sounds and you're off! Leaning, tilting, left, right, speeding through the gates. Just like real.

Lean forward, your speed increases. Lean back and...yikes!

Back on course... hurry... faster. Remember this is a race. Watch out for that tree!... safe, but not a moment to spare.

The timer is ticking away and your opponent is just waiting... heh, heh, heh... to break your record.

9 different course variations.

### Other Joyboard™ games:

Off Your Rocker™

Surf's Up™

S.A.C. Alert™

### and more!

The Joyboard™ works with almost all Atari 2600™ compatible video games.
