MOUSE INSTALLATION FOR THE AMSTRAD CPC

This mouse interface plugs into the expansion port at the rear of the machine. The device goes behind your chair, leaving the mouse to project from the device port at the top of your computer. The mouse, keypad, light, display panel for control type and new games on the device. There are two on the machine, mouse and keypad. The mouse will be installed on the machine, with the keypad on the side. The mouse will be installed on the machine, with the keypad on the side. The mouse will be installed on the machine, with the keypad on the side.

INSTALLING THE OCF ART STUDIO

Simply load the Art Studio for the Amstrad CPC. When loaded, you will be presented with a screen showing the top of the screen. To the bottom right, there is a 'start' button to start a picture screen. When done on the OCF ART STUDIO machine, you will see a screen with a picture of the mouse. When done on the OCF ART STUDIO machine, you will see a screen with a picture of the mouse.

TECHNICAL ENQUIRIES ☎ 0782 744224

Our Technical Enquiries will try to answer your questions concerning the installation or operation of any Datel products. The Technical Line is available Monday to Friday 9.00am-5.00pm. Unfortunately, we are not able to answer any written technical enquiries since this is a telephone only service.

ORDER ENQUIRIES ☎ 0782 744707

All efforts have been made to ensure that your order is delivered to you as quickly as possible and without problems. If however, you have a query concerning any aspect of your order, then please contact our Sales Department on 0782 744707. Please quote the number on the right hand side of the address label affixed to your order, since this will speed up the processing of your enquiry.

CUSTOMER SERVICES ☎ 0782 744189

Any enquiry concerning your order should, in the first instance, be made to our Sales Department - 0782 744707 since they are best equipped to deal with it. If you feel that you have a problem that our Sales Department has been unable to resolve, then please telephone our Customer Services Department on 0782 744189 who will try to assist you further with your enquiry.

DATTEL
ELECTRONICS

MOUSE INSTALLATION FOR THE AMSTRAD CPC

Your mouse interface simply plugs into the expansion port at the rear of the machine. The joystick type trailing lead which comes from the interface is plugged into the joystick port on the side of your computer. The mouse supplied, again, simply plugs into the joystick type socket on the side of your mouse interface. The hardware installation is now complete and you can now power up the machine. Please note that no interface should be connected or disconnected while the machine is switched on, otherwise damage may occur. It should not be necessary to remove the interface as it is compatible with most other products but, should problems occur, it should be removed. It is advisable, however, to remove the mouse interface lead from your joystick port, as it may interfere with normal operations when not using the mouse.

INSTALLING THE OCP ART STUDIO

Simply load the Art Studio in the normal way. When loaded, you will be presented with a menu across the top of the screen. Using the cursor keys, move the arrow to the MISC position to reveal a pull-down menu. Now move to the INPUT DEVICE position and press SPACE to select a further input device menu. Again using the cursor keys, move to the AMX MOUSE position and press SPACE to select this device. You now have mouse control of the arrow and can move away from the pull-down menus and press SPACE to clear the screen. You are now ready to draw.
