THE LITTLE COMPUTER PEOPLE ARE WAITING FOR YOU TO BE A FRIEND!!

Locked in the darkness deep inside each and every computer are many different Little Computer People (LCPs). They have lived their lives in secret for years, playing tricks on many computer owners, but never letting themselves be seen or heard. Until now.

Discover the LCP inside your computer, watch him live his life. He'll eat, sleep, play his piano, play records, and much more. You can even communicate with him, play games with him and he'll rely on you for food, water and friendship.

LITTLE COMPUTER PEOPLE RESEARCH PROJECT™

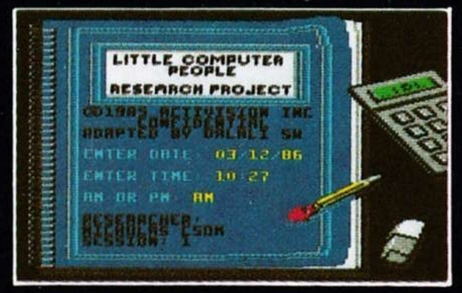

Il y a quelqu'un qui vit dans votre ordinateur. Un être humain fascinant, intéressant et merveilleux dont vous n'aviez jamais entendu parler.
Il a fallu des années d'études, de magie technique et de patience pour les persuader de sortir. Nous ne connaissons pas leurs noms et ne savons pas grand-chose sur eux mais ces minuscules créatures flânent, font le ménage, répondent au téléphone, regardent la télévision, écoutent la chaîne Hi-Fi, dansent et offrent beaucoup de divertissement à leurs propriétaires.

- Un environnement domestique vous est fourni.
- Le clavier vous permet de communiquer en Anglais avec les habitants bien qu'ils ne fassent pas toujours ce qu'on leur dit.
- Chaque personnage a sa propre personnalité et son propre aspect.

Créé par David Crane d'après une idée originale de Rich Gold.
